

Phobya temperature sensor in / outer thread G1/4 - matte black

\$14.95

Product Images

Short Description

The new temperature sensor from Phobya with g1/4" inner thread and G1/4" outer thread respectively. With its compact design this sensor can be integrated into the cooling loop at virtually any suitable thread. Its timeless design makes it blend right into the system, especially as it's low height of only 11,6mm (without threads) allows it to fit below almost any connector. The sensor cable is equipped with a standard 2-Pin plug.

Product Information

The new temperature sensor from Phobya with G1/4" inner thread and G1/4" outer thread respectively. With its compact design this sensor can be integrated into the cooling loop at virtually any suitable thread. Its timeless design makes it blend right into the system, especially as its low height of only 11,6mm (without threads) allows it to fit below almost any connector. The sensor cable is equipped with a standard 2-Pin plug.

High-Flow, no narrowing of the cooling channel inside of the sensor! Also see example of installation.

Sleeving:

This cable is not only practical, it is also optically appealing, The surrounding mesh, also called mesh, which is surrounding the cable itself offers the advantages that every Pro-modder is looking for: A completely unique look, even of the cables in the system! Special attention was paid to the combination of cable connectors, sleeve and heatshrink which were used to ensure great design and a unique as well as elegant look.
