Description

Bykski Distro (or Distribution) Plates are a unique way to outfit your loop. They are designed for a case-specific fit that allows for clean, parallel lines and stunning visual appeal. This Distro plate is engineered to be used with an inline pump (included), allowing you to power your entire loop right from your loop's center piece.

Warnings

This block is designed specifically for this case. Depending on motherboard, blocks, fittings used and layout the connecting tubing may not appear as pictured (perfectly horizontal). Not responsible for any hardware damage. Use at your own risk.
