Short Description

Product Details:

You're walking through East Nowhere and the battery in your cell phone or P.D.A. dies. There's no place to plug in a charger, and besides, you don't have time to hang around while the battery recharges. Cell phone battery boosters have been around for a while, but they have built-in batteries that need periodic recharging as well. But with the Turbo Charge you can recharge your phone with a AA battery. The charger, which you plug into the phone or P.D.A. with an adapter, can give you up to two hours of talk time or 40 hours on standby. It comes with 10 adapters for almost every cell phone made and a starter AA battery. This lipstick-size charger is a must have for anyone that owns a cell phone!! That means no more missed calls and no more excuses for not returning a call, even if you're stuck in East Nowhere. Can use standard AA batteries or rechargeable Ni-MH batteries

Features:

- Battery-Powered
- Reusable
- Runs on a single AA Battery
- Advanced technology for extra power and safety
- Perfect for Emergencies
- Safest and most convenient way to charge your cell phone!
- Use it ANYWHERE in the world!

THE ELECTRONIC, REUSABLE, PORTABLE CELL PHONE CHARGER

Turbo Charge features exclusive Dual AlgorChip™ Technology for extra power and safety. This advanced design regulates flow of energy to the cell phone battery. Unlike ordinary chargers which try to send a full charge to your cell phone battery - risking damage or fire to your phone! So don't waste your money on cheap imitations or expensive disposable units - get the original Turbo Charge today!

DIGITAL - POWERFUL - CONVENIENT - LIGHTWEIGHT

HOW TO USE:

- Step 1:** Unscrew bottom and load one "AA" battery into the TURBO CHARGE.
- Step 2:** Connect the appropriate adapter for your cell phone to the top of the TURBO CHARGE.
- Step 3:** Connect the adapter to the same place on your cell phone where you connect other charging adapters.
- Step 4:** Blue light will illuminate indicating cell phone is charging. You can now use your cell phone.
- Step 5:** When blue light stops illuminating, replace the "AA" Battery.

Turbo Charge is guaranteed not to overcharge or damage your cell phone. (See Guarantee enclosed in package.)

Includes:

- Cell charger
- TC200 Includes adapters for most Motorola RAZR/ROKR, Motorola, Samsung & Sony Ericsson phones
- Mfg. part numbers for included adapters: TA101, TA103, TA105, TA108
- AA battery
- Instructions
