

# MAINFrame Customs 12pin ATX Female - Black

\$0.49

## Product Images

## Short Description

This is the 12pin ATX Female connector used on some power supplies. Our connectors are the highest quality and have a deep Black color. Our connectors also feature a "no wing" design eliminating the unsightly and

unneded side clip. You may be wondering how is this possible?

## Description

---

This is the 12pin ATX Female connector used on some power supplies. Our connectors are the highest quality and have a deep Black color. Our connectors also feature a “no wing” design eliminating the unsightly and unneded side clip. You may be wondering how is this possible? Well, we source our connectors directly from our manufacturer. This allows us to not only oversee the quality but cuts out the middleman so we can offer them to you at the lowest price around!
