Short Description

EK-Quantum Vector FE RTX 3080 Backplate - Silver is a CNC machined retention backplate made from silver anodized aluminum for the EK-Quantum Vector FE RTX 3080 - Special Edition water block.

Description

EK-Quantum Vector FE RTX 3080 Backplate - Silver is a CNC machined retention backplate made from silver anodized aluminum for the EK-Quantum Vector FE RTX 3080 - Special Edition water block.

The backplate covers the backside of the graphics card's PCB and serves as an aesthetic add-on. It provides additional passive cooling for the GPU core and rear of the printed circuit board VRM section. Due to the small size of both the card and the water block, the backplate boasts a ribbed design for additional passive cooling power.

PLEASE NOTE:

- Only compatible with EK-Quantum Vector FE RTX 3080 D-RGB - Special Edition water blocks

Additional Information

Brand	EK Waterblocks
SKU	EK-QUANT-VEC-FE-RTX-3080-BP-SL-D
Weight	2.5000
Color	Silver
Vga	GeForce RTX 3080 Founders Edition
Block GPU Type	Nvidia
Vendor SKU/EAN	3831109836637
Special Price	\$47.95
