

EK-Loop Hard Tube 12mm 0.5m - Acrylic (2pcs)

\$9.99

Product Images

Short Description

EK-HD Tube is solid type extruded acrylic tubing intended for use with [EK-HD](#) push-in adapters and [EK-HDC](#) series compression fittings.

The tubing may be heat treated to achieve certain bends. For expert users only!

Description

EK-HD Tube is solid type extruded acrylic tubing intended for use with [EK-HD](#) push-in adapters and [EK-HDC](#) series compression fittings. The tubing may be heat treated to achieve certain bends. For expert users only!

It is mandatory to chamfer the edges of freshly cut tube in order to prevent gasket (O-ring) damage. EK recommends a 0,5mm x 45° chamfer.

Specifications

Technical data:

- Material: Extruded acrylic
- Inner diameter: 10 mm
- Outer diameter: 12 mm
- Length: 500 mm (19.5")

The package contains 2 pieces of tube only. Please purchase EK-HD Adapter or EK-HDC compression fittings separately!

For easier installation we recommend wetting the gasket (O-ring) using drops of water prior to installing solid tube.
