Special Price  
**\$47.99** was  
**\$62.99**

## Product Images

## Short Description

The backplate covers the backside of the graphics card's PCB and serves as an aesthetic add-on. It provides additional passive cooling for the GPU core, rear-mounted VRAM and backside of the printed circuit board VRM section.

## Description

The backplate covers the backside of the graphics card's PCB and serves as an aesthetic add-on. It provides additional passive cooling for the GPU core, rear-mounted VRAM and backside of the printed circuit board

VRM section. Due to the small size of both the card and the water block, the backplate boasts a ribbed design for additional passive cooling power and touches the active part of the water block for true hybrid cooling.

EK-Quantum Vector FE RTX 3090 Backplate - Black is a CNC machined retention backplate made from black anodized aluminum for the EK-Quantum Vector FE RTX 3090 - Special Edition water block.

PLEASE NOTE:

- Only compatible with EK-Quantum Vector FE RTX 3090 D-RGB - Special Edition water blocks

## Specifications

---

Enclosed:

- EK-Quantum Vector FE RTX 3090 Backplate - Black
- Mounting screws
- Thermal pads

Made in Slovenia - Europe!

## Additional Information

Brand	EK Waterblocks
SKU	EK-QTM-VT-FE-3090-BP-BK-D
Weight	2.5000
Color	Black
Vga	GeForce RTX 3090 Founders Edition
Block GPU Type	Nvidia
Block Accessory Type	VGA Backplate
Material	Aluminum
Vendor SKU/EAN	3831109836712
Special Price	\$47.99
