## Short Description

---

Designed by Singularity Computers and manufactured in the USA by Performance PCs.

This distribution plate fits onto the mid plate of the Phanteks Enthoo Elite. It is designed to be used together with our Phanteks Elite Vertical Distribution Plate

## Description

---

Designed by Singularity Computers and manufactured in the USA by Performance PCs.

This distribution plate fits onto the mid plate of the Phanteks Enthoo Elite. It is designed to be used together with our Phanteks Elite Vertical Distribution Plate in a dual loop configuration. This distribution plate is for the GPU loop whereas the Phanteks Elite Vertical Distribution Plate contains both loops. One loop runs down to the Phanteks Elite Horizontal Distribution Plate and one loop runs up to the CPU area.

## Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Service! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

## Features

---

Installation:

Compatible with the Phanteks Enthoo Elite. Use the included x4 M4 22mm and x4 M4 Nuts to attach to the mid plates. The Mounting Holes will align with 2 of the Radiator mounting points in the front and 2 holes in the back underneath the Motherboard.
