## ONLY WHAT YOU NEED

Organizing cables is often the most bothersome part of building a PC. With the MPG gaming power supply's fully modular design, it means that only the connectors required by the build need to be used, significantly reducing cable clutter and simplifying the system's overall build.

## ALL THE MORE ORGANIZED

All of the MPG gaming power supply's cables are flat and fit back. The flat cables make cable management easier and less of a headache! Thanks to the flat cables, the entire system can be more organized and has more room for unobstructed airflow. Use the cables you need, and store the rest in the included cable bag.

Shown with MSI's MPG GUNDR 110M & MAG CORELIQUID 240R liquid cooler.

## FEELS RIGHT AT HOME

The MPG gaming power supply's 160mm-long and 150mm-wide dimensions ensure a comfortable and easy fit in most PC cases, effectively providing more space for cable management and airflow to the rest of the system.
