### Superb Cooling Performance

Excess heat from APU and VRM is effectively transferred from the aluminium core to the **all-aluminium body** which acts as a **heatsink** to **dissipate** the heat to the surrounding. Ensuring the system runs at **optimal thermal performance**.

### Contemporary and Made-to-Last Design

Aluminium case provides durability and long-lasting use. Coupled with symmetrically extruded fins and striking classical inspired panels for stunning aesthetics and functionality, which means the case look great in any environment.

### Contemporary design

Ideal for home and business applications from digital signage to home-theatre setups and more.

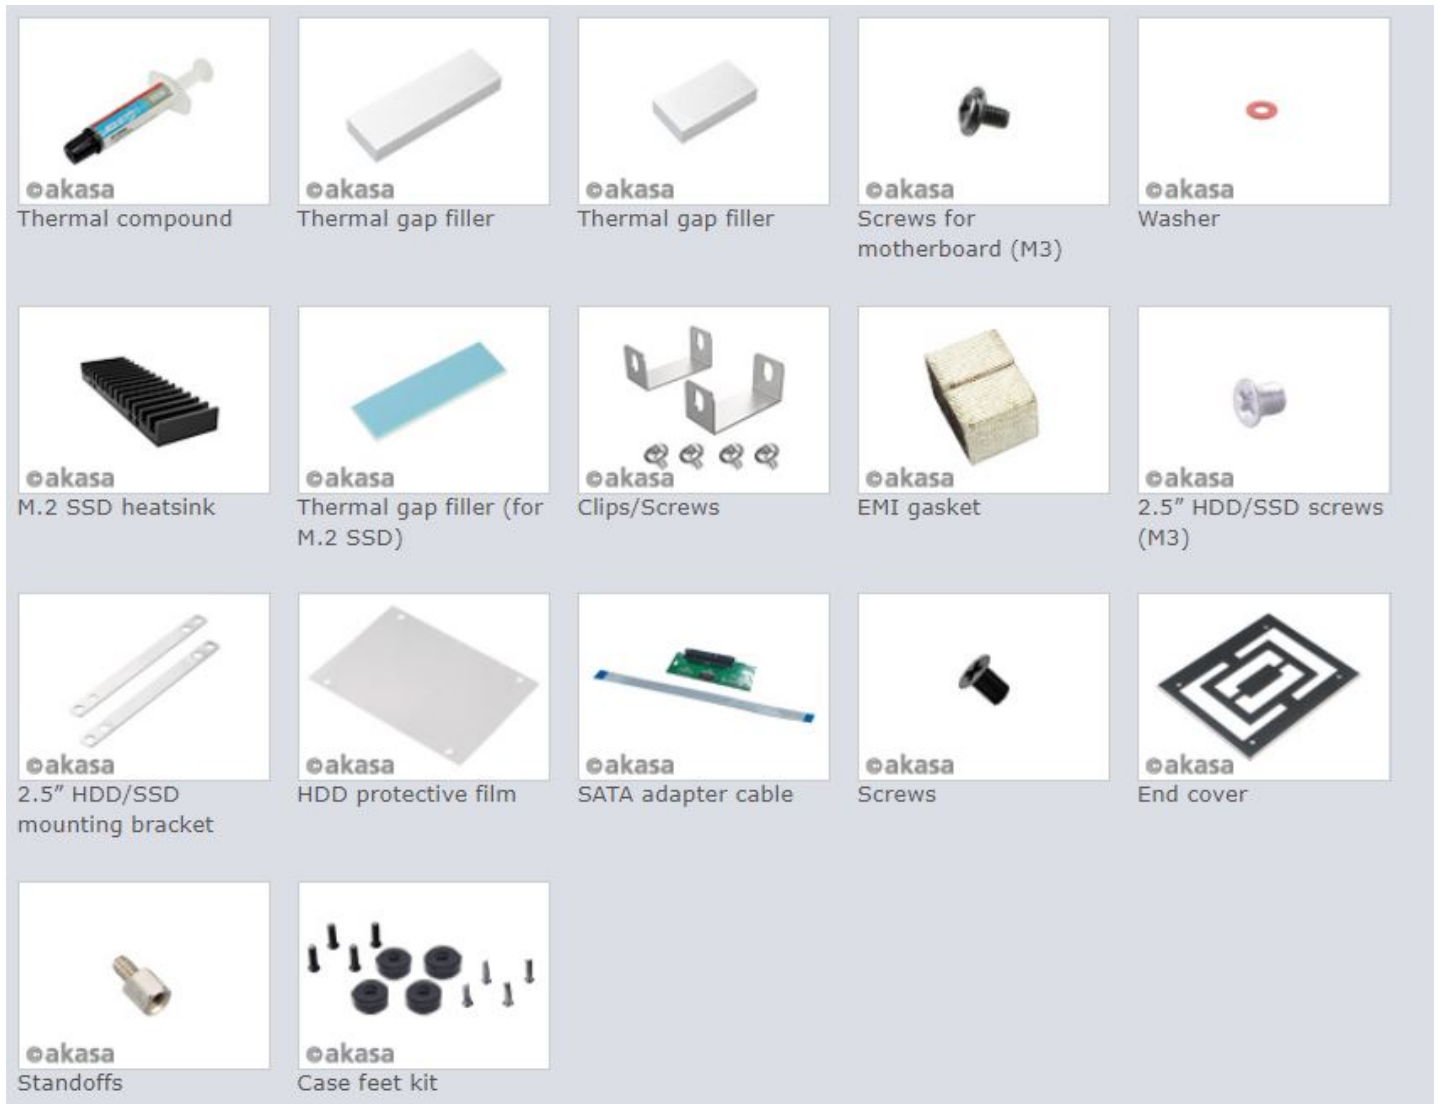

### Supports up to Four 4K Displays

The Turing TN case provides connector openings for connectivity of four 4K displays. Perfect for an array of business applications such as security and digital signage.
