

# XSPC D5 Photon 170 aRGB Reservoir / Pump Combo V3

\$192.95

## Product Images

## Short Description

---

The new D5 Photon Reservoir/Pump Combo V3 brings back the original Photon looks combined with the all new aRGB Lighting system + the Original Laing D5 Pump.

## Description

---

The new D5 Photon Reservoir/Pump Combo V3 brings back the original Photon looks combined with the all new aRGB Lighting system + the Original Laing D5 Pump.

The D5 Vario pump features exceptional performance and unrivalled reliability. The D5's speed dial allows you to adjust the pump speed to best suit your system, and the tachometer output lets you accurately monitor the pump's speed.

The tube is made from a quality toughened glass, which is both crystal clear and highly resistant to staining. The aRGB lighting is now at the back of the reservoir and features a diffuser strip for a more professional look to your build.

Unlike other tube reservoirs, which use cheap plastic brackets, the XSPC Photon has high quality CNC cut aluminium bracket. The bracket connects to both ends of the reservoir which give a solid hold without blocking the view of the tube.

Photon reservoirs can be mounted either horizontally or vertically. If using the Photon horizontally, make sure to keep the reservoir topped up to the top, or air can get sucked into the loop.

Each reservoir/pump combo is hand assembled and pressure tested before sale to ensure reliability.

V3 Photon reservoirs include a new bracket which attaches directly to 120mm and 140mm radiators. It also has an improved fillport with lower restriction, to make filling the reservoir easier.

RGB Compatibility:

- All 3Pin 5v Addressable RGB Motherboards, Controllers and Hubs including...
- Asus AURA Sync (3Pin 5v Headers only)
- Gigabyte RGB Fusion (3Pin 5v Headers only)

- MSI Mystic Light Sync (3Pin 5v Headers only)

NOTE: Do not attempt to plug the 3Pin 5V aRGB cable into anything other than an aRGB 5V Motherboard header pin, Controller or Hub. Each aRGB strip is tested prior to shipping, user damage by misuse is not covered under warranty.

## Features

---

Tube Material: Glass

Cap Material: Acetal

Bracket Material: Aluminium

Dimensions: 241.5 x 85 x 89mm (Including Pump + Bracket)

Capacity: 425ml

Lighting: 10x Individual aRGB bulbs

Ports: 3x G1/4" (2x In, 1x Out)

Individually Pressure Tested

## Specifications

---

D5 Pump Specification:

Original Xylem/Laing D5 Vario pump

4 Pin Molex and 3 Pin Tacho Output

Speed Selector Dial

Maximum Flow: 1200 lph (12V)

Maximum Head Delivery: 3.7m (12V)

Voltage: 8-24V (37W Max)

Included:

XSPC Photon V3 aRGB D5 Reservoir and Pump Combo - Black

Integrated aRGB diffused lighting

Mounting Bracket (Matte Black)

G1/4" Blank Plug (Matte Black)

M20 Fill Cap (Matte Black)

Custom D5 Lock Ring

## Additional Information

Brand	XSPC
SKU	XSPC-D5-PHTN-170-ARGB-CMBO
Weight	4.0000
Color	Black
Reservoir Type	Tube Res
Tube Res Length	170mm
Pump Type	Laing D5 PWM
Vendor SKU/EAN	5060596651142
