Short Description

Full cover water block for NVIDIA RTX 3080 and RTX 3090 graphics cards according to reference design with wider PCB dimensions.

Description

Full cover water block for NVIDIA RTX 3080 and RTX 3090 graphics cards according to reference design with wider PCB dimensions.

Manufactured from a massive block of copper, the base of the water block covers all relevant heat sources. In the GPU area, a jet plate made from stainless steel assures maximum cooling performance, while wide coolant channels in other areas guarantee minimum flow resistance.

The top is manufactured from acrylic glass, reinforced by a black anodized aluminum frame. Fifteen individually addressable RGBpx LEDs are integrated into the water block and can be connected to an Aqua Computer device with RGBpx output or to a motherboard with a compatible output.

Features

- Mirror finish for relevant contact areas.
- Direct contact to GPU and RAM, high quality thermal pad included for further components such as voltage regulators.
- All mounting threads are equipped with metal spacers for easy installation.
- Inlet and outlets ports with G1/4 thread, can be used from both sides. Two sealing screws included.
- Interchangeable connection terminal.
- Full compatibility to kryographics connection terminals with VISION module and kryoconnect SLI connectors.

Compatible products for integrated RGBpx illumination:

- All Aqua Computer products with RGBpx output
- Various motherboards with connector for addressable RGB LEDs

Specifications

Materials:

- Base part: Copper
- Top cover: Acrylic glass
- Frame: Aluminum, anodized
- Jet plate: Stainless steel
- Terminal: Acetal

Scope of delivery:

- Water block without hose connectors (threads G1/4)
- Two G1/4 sealing screws
- Thermal compound Thermal Grizzly Kryonaut, approx. 1 gram in syringe
- Plastic spatula
- Thermally conductive pad
- Mounting material

- RGBpx connection cable 50 cm
- RGBpx adapter

Additional Information

Brand	Aquacomputer
SKU	AQ-23696
Weight	2.4000
Color	Black
Vga	GeForce® RTX 3080 and 3090(reference)
Block GPU Type	Nvidia
Block Style	Acetal/POM
Vendor SKU/EAN	4260473313960
Special Price	\$140.79
