Thermaltake A700 Aluminum Tempered Glass Edition Full Tower Chassis

$349.99

Product Images

Short Description

A700 TG full tower case comes with two tempered glass panels, two preinstalled 140mm fans with one at the front and one at the rear, supporting motherboards up to E-ATX.

Description

Thermaltake A700 Aluminum Tempered Glass Edition Full Tower Chassis

Thermaltake A700 Aluminum Tempered Glass Edition full tower chassis features a sleek aluminum front panel, two 5mm tempered glass panels, two preinstalled 140mm fans. It has a built-in power supply cover for clean and easy cable management and also supports up to a standard E-ATX motherboard. Accommodating the latest PC hardware including the most advanced graphic cards and air/liquid cooling solutions, the A700 Aluminum TG incorporates vertical radiator & GPU mount, Patented Rotational PCI-E slots, and the support for 200mm fans. It is a perfect fit for users who are looking for a feature-rich, modern, stylish chassis.

TT Premium

To continue achieving the corporate mission of delivering the perfect user experience, Thermaltake developed "TT Premium" with the essence of combining supreme quality products with a new logo design. TT Premium is far more than just a guarantee of quality. Behind the name, it represents the passion in DIY, Modding and Thermaltake's desire to be the most innovative brand in the PC hardware market. To satisfy the demand of the high-end PC users, TT Premium follows its core values of Excellent Quality, Unique Design, Diverse Combinations and Boundless Creativity to provide a high performance PC product for every enthusiast.

Tt LCS Certified

Tt LCS Certified is a Thermaltake exclusive certification applied to only products that pass the design and hardcore enthusiasts standards that a true LCS chassis should be held to. The Tt LCS certification was created so that we at Thermaltake can designate to all power users which chassis have been tested to be best compatible with extreme liquid cooling configurations to ensure you get the best performance from the best features and fitment.

Sleek Aluminum Design

The A700 Aluminum TG chassis is built to be sleek and minimalist. The clean aluminum front and top panels hide the ample air intakes, and the power supply cover gives you plenty of space to route cables and clean up the build.
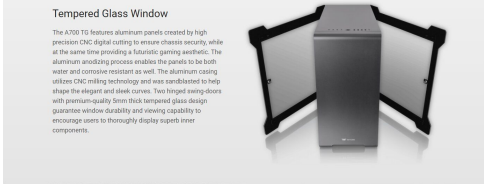

Features
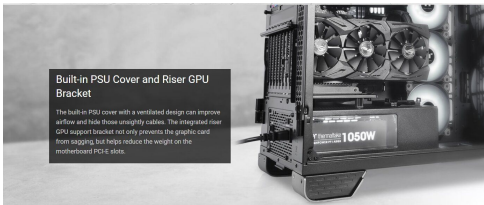

Built-in PSU Cover and Riser GPU Bracket

The built-in PSU cover with a ventilated design can improve airflow and hide those unsightly cables. The integrated riser GPU support bracket not only prevents the graphic card from sagging, but helps reduce the weight on the motherboard PCI-E slots.

Patented Rotational PCI-E 8 Slots Design

With Patented Rotational PCI-E slot, you can choose the way you want to display graphic cards vertically which helps you gain flexible space for system.

Tempered Glass Window

The A700 TG features aluminum panels created by high precision CNC digital cutting to ensure chassis security, while at the same time providing a futuristic gaming aesthetic. The aluminum anodizing process enables the panels to be both water and corrosive resistant as well. The aluminum casing utilizes CNC milling technology and was sandblasted to help shape the elegant and sleek curves. Two hinged swing-doors with premium-quality 5mm thick tempered glass design guarantee window durability and viewing capability to encourage users to thoroughly display superb inner components.

Excellent Dust Filtration

A handy magnetic fan filter on the top of the case, simply attaches for easy dust filtration and particulate protection. At the base of the chassis, additional fan filters provide excellent protection against both dirt and dust.
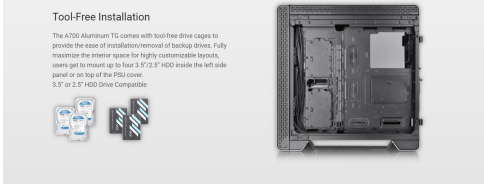

Tool-Free Installation

The A700 Aluminum TG comes with tool-free drive cages to provide the ease of installation/removal of backup drives. Fully maximize the interior space for highly customizable layouts, users get to mount up to four 3.5"/2.5" HDD inside the left side panel or on top of the PSU cover.
3.5" or 2.5" HDD Drive Compatible

Superior Hardware and Liquid Cooling Support

The A700 TG contains outstanding expandability options, allowing you to build the most high-end system you can dream of. It can support a CPU cooler with a maximum height of 200mm, dual expansion slot GPUs of up to 410mm in length (without a HDD rack), and a power supply with a length of up to 220mm. Furthermore, the A700 TG has been optimized with excellent cooling capabilities, with one 140mm exhaust front fan and one 140mm rear fan, both coming pre-installed. The case is able to house up to three 140mm or two 200mm front fans, up to two 200mm fans on top, and a radiator up to 360mm on top and 420mm at the front.

CPU Cooler
Max height 200 mm

Motherboard
ATX, Micro ATX, Mini ITX

PSU
Max length 220 mm

VGA
Max length 410 mm

Handy I/O Ports

The top-front panel features two USB 3.0 ports, along with one Type-C and two standard USB 2.0 ports, to grant direct access when needed.

DMD: Dismantlable Modular Design

Strip your case down to the bones and install elements when and as you need them with our modular design. The A700 TG features modular panels, racks, brackets, and pre-design mounting arrays. No more unreachable screw corners or gaps, installation can be a breeze with our Dismantlable Modular Design.
