Short Description

Built-in 140mm ultra quiet fan notebook cooler with ergonomic design, supporting up to 15" gaming notebooks.

Description

Thermaltake Massive S14 NB Cooler

Thermaltake Massive S14 is a notebook cooler featuring a large 140mm silent fan with ultra-cooling performance. The ergonomic design is to provide optimum screen height and avoid excessive need for twists and turns. Supporting up to 15" Notebooks, it is simply powered from the notebook USB. To give your laptop a better cooling solution, the Thermaltake Massive S14 is what you should not miss out!

Superior Ventilation

Massive S14's built-in quiet 140mm fan that offers big but silent airflow and high cooling performance to reduce the overall temperature of your laptop/notebook.
