Short Description

TH240 is an all-in-one 240mm liquid cooler that supports 5V RGB compatible motherboards.

Description

TH240 ARGB Sync AIO Liquid Cooler

Thermaltake TH240 ARGB Sync is an all-in-one liquid cooler which includes two 120mm powerful high static pressure fans, and a high performance radiator along with a water block, 16.8M RGB color illumination with pre-set lighting modes via the smart fan controller, or synchronizes with motherboard RGB software for stunning RGB colors.

Tt LCS Certified

Tt LCS Certified is a Thermaltake exclusive certification issued only to products that pass the design and hardware enthusiast standards. The Tt LCS certification is to ensure you will get the best performance from the best features and features.

Smart Fan Controller

The ARGB controller allows users to switch LED modes, LED colors, and lighting speeds when using a motherboard without a 3P addressable RGB header. Users can switch between flow, ripple, pulse 30% when full speed, RGB spectrum, and off modes with various colors and LED speed options.

Dual 120mm ARGB Radiator Fan

High-static pressure fan design delivers impressive cooling performance.

High Efficiency Radiator

Specially designed 240mm large surface radiator increases surface delivering exceptional heat dispersion.

High Performance Waterblock

The high performance copper base plate accelerates heat conductivity.

High Reliability Pump

The high quality and reliable pump enables maximum water circulation, keeping the copper plate continuously cool. The low evaporation tube effectively decreases the loss of coolant, therefore no refill is required.

Simple Setup

Featuring superb cooling performance, the TH240 ARGB Sync provides an easy installation and maintenance free operation, requiring only the minimum amount of space in the chassis.

Sync with Motherboard RGB Software

Designed to synchronize with ASUS Aura Sync, GIGABYTE RGB Fusion, MSI Mystic Light Sync, and ASRock Polychrome. It supports motherboards with a 3P addressable RGB header, allowing you to control the lights directly from the software mentioned above without needing any extra lighting software or controllers. For more details, please visit ASUS, GIGABYTE, MSI, and ASRock official websites.

Check:

- ▶ Check the RGB Pin (ARGB 5V)
- ▶ The motherboard digital connector only supports 3P headers.
- ▶ Make sure your motherboard software is the latest version.

RGB Memory, VGA, Waterblock, Cable Port:

- ▶ The product can only be used with other Tt RGB LED software on the dedicated motherboard. It may vary from time to time, please refer to the latest version.
- ▶ The motherboard digital connector only supports 3P headers.
- ▶ Make sure your motherboard software is the latest version.

Specifications

More Information

	CL-W286-PL12SW-A
	Rated Voltage: 12 V / 5V Rated Current : 0.38A & 0.25A Motor Speed : 3300 R.P.M
	Material: Copper
	Dimension: 120 x 120 x 25 mm Speed: 1500 RPM Noise Level: 28.2 dB-A Rated Voltage: 12 V & 5 V Max. Air Flow: 59.28 CFM Max. Pressure: 1.31 mm-H2O Connector: 2510-3 Pin , 5 V ARGB header-3 Pin
	Length: 400 mm Material: Rubber
	Dimension: 273x 120 x 27 mm
	Intel LGA 2066/2011-3/2011/1366/1200/1156/1155/1151/1150 AMD FM2/FM1/AM4/AM3+/AM3/AM2+/AM2

Additional Information

Brand	Thermaltake
SKU	CL-W286-PL12SW-A
Weight	2.5000
Color	Black
Block CPU Type	Intel/AMD
Vga	AMD Radeon RX 6800XT Nitro+
Radiator Size	240 (2 x 120mm)
Radiator Thickness	27mm
