Short Description

UX210 ARGB Lighting CPU Cooler comes with high airflow blades and U-shape copper heat pipes. Built-in ARGB LEDs delivers a vibrant lighting effect that also supports motherboard sync. Compatible with universal Intel and AMD socket.

Description

16.8 M True RGB Color

Features 10 high lumen addressable LEDs with 16.8 million colors. UC210 gives you the best RGB lighting experience. Enjoy the stable cooling performance and magnificent visual effect with UC210.

Sync with Motherboard RGB Software

Designed to synchronize with ASUS Aura Sync, ASRock RGB LED, GIGABYTE RGB Fusion and MSI Mystic Light Sync. UC210 supports motherboards that have a 5V addressable RGB header, allowing you to control the lights directly.

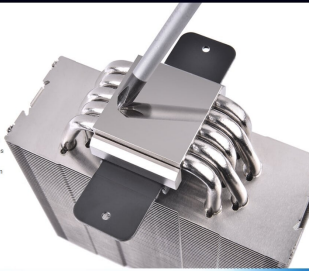

RGB Header Connecting Instruction

*Caution: the motherboard signal connector only supports 5V header.

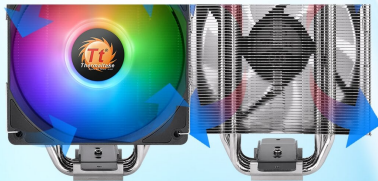

High performance Copper Base and U-shape Heat Pipes

The copper base makes perfect contact with the CPU and thermal paste; the extended 5 x 80 mm heat pipes create a perfect circulation system for better CPU cooling performance, supporting CPU heat dissipation up to 120W.

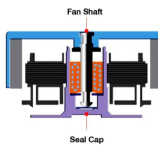

HIGH VOLUME AIRFLOW DESIGN

The fan blades are built to generate a large volume of air passing through the aluminum heatsink at any angle for the steady air flow and cooling quality.

RELIABLE HYDRAULIC BEARING

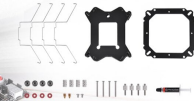

The hydraulic bearing self-lubricates with a high quality, friction-reducing substance that lowers operation noise and enhance thermal efficiency. The seal cap prevents leakage of the lubricant and extends the lifespan of the unit.

Easy to Install

The mounting kit offers hassle-free installation. UC210 includes all-in-one back-plate is compatible with all the latest Intel and AMD CPU sockets.

Intel LGA 2066/2011/2011-3/1366/1200/1501/1505/1155/1153/1150
AMD AM4/AM3+/AM3/AM2+/AM2/EM2/EM1

Sync with Motherboard RGB Software

Designed to synchronize with ASUS Aura Sync, GIGABYTE RGB Fusion, MSI Mystic Light Sync, and ASRock Polychrome. It supports motherboards with a 5V addressable RGB header, allowing you to control the lights directly from the software mentioned above without installing any extra lighting software or controllers. For more details, please visit ASUS, GIGABYTE, MSI, and ASRock official websites.

Category	Caution
Chassis, RGB Fan, ARGB LED	<ul style="list-style-type: none"> The motherboard signal connector only supports 5V header. Make sure your motherboard software is the latest version.
RGB Memory VGA, RAM, Backlight, Display Panel	<ul style="list-style-type: none"> This product can only be used with other 5V RGB PLUS software or the dedicated motherboard software. By having more than two applications open may cause conflicts. The motherboard signal connector only supports 5V header. Make sure your motherboard software is the latest version.

Additional Information

Brand	Thermaltake
SKU	CL-P079-CA12SW-A
Weight	1.0000
Color	Black
Heatsink Type	CPU Heatsink
Fan Dimensions	120mm
Fan Connection	4-Pin PWM
Fan RPM	2000
Fan CFM	72
Fan Noise (dB)	34
LED Color	Addressable/Digital RGB
