It also contains parts from Singularity Computers, Hardware Labs and Lian-Li. For a complete list of the parts go to the Specifications section of this listing.

## Description

This CORSAIR iCUE 7000X RGB full-tower ATX Case has been Modded for a Dual loop system using the Channelz Corsair 7000X/D Dual D5/DDC distro plates. It also contains parts from Singularity Computers, Hardware Labs and Lian-Li. For a complete list of the parts go to the Specifications section of this listing.

# A FULLY-FEATURED FULL-TOWER

Even in cases as big as these, it's the little things that make all the difference. From flexible storage and cooling options to tool-free swing-out side panels and clean cable management, every element of the 7000 Series helps you make your most ambitious build a reality.

## THREE-SLOT VERTICAL GPU MOUNT

Put the spotlight on your graphics card with an innovative vertical GPU mount, big enough to fit today's most powerful graphics cards with plenty of room for airflow.

## SHOW US WHAT YOU'VE GOT

A removable, customizable windowed PSU shroud shows off the heart of your system. Remove the panel, add vinyl graphics, laser-etch your own logo, or add backlighting to make your rig stand out.
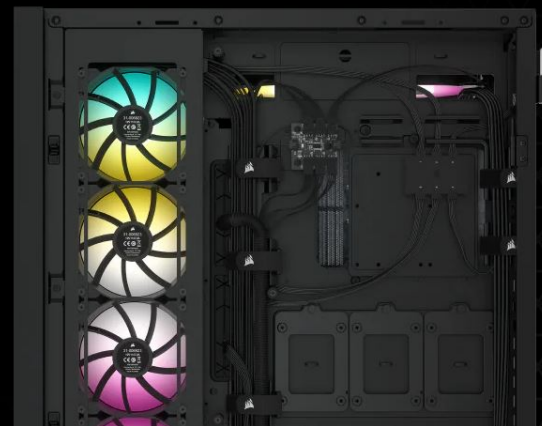

# CORSAIR RAPIDROUTE CABLE MANAGEMENT

Quickly and easily route your major cables through a single hidden channel, with a roomy 25mm of space behind the motherboard for all of your cables, easily concealed by a hinged steel door.

## ALL THE STORAGE YOU NEED

FITS UP TO

## MODERN FRONT PANEL I/O

Puts your connections within easy reach, including a USB 3.1 Type-C Port, 4x USB 3.0 port, and a combination audio/microphone jack.

① Power button

② 4x USB 3.0 ports

③ USB 3.1 Type-C port

④ Headphone/Mic Combo Jack

⑤ **Reset button**

# Features

Up to three simultaneous 360mm radiators (roof, side, front), two simultaneous 420mm radiators (roof, front), or even a 480mm radiator (side) means you can design your dream loop.

# THE BRAINS OF THE OUTFIT

The COMMANDER CORE XT is more than just a lighting and fan controller for up to six fans. It can be expanded to monitor temperatures (two temp monitor sensors included) and even tie-into other iCUE devices like the LS100 Lighting Strips or RGB LED Lighting PRO Expansion kits.
