Short Description

Thermaltake introduces the Pacific Series fill port fittings for the ultimate in custom PC water cooling configurations

Description

Thermaltake Pacific 1/2" (12.7 mm) Fill-port – Chrome

Thermaltake introduces the Pacific Series fill port fittings for the ultimate in custom PC water cooling configurations, finished in chrome-plated copper with a unique Tt logo. Choose from: 1/4", 3/8", and 1/2", Thermaltake fittings provide a complete solution for DIY enthusiasts and PC builders by giving users ideal mounting, fitting and flow.

High-flow and Leak-free Design

Made in Taiwan, the fittings allow proper connection to G1/4" thread, securing properly to flexible tubing for easier coolant refill. The fittings are available in chrome and black finishes.
