

# Thermaltake Pacific W6 CPU Water Block (AMD Ryzen Threadripper TR4)

\$99.99

## Product Images

## Short Description

---

Software-controlled waterblock designed for AMD TR4 socket with a 16.8M colors LED ring, 0.2mm internal fin construction, anti-corrosive nickel plating.

## Description

## Pacific W6 CPU Water Block(AMD Ryzen Threadripper TR4)

The copper based Pacific W6 CPU Water Block is custom designed for Socket TR4 of AMD Ryzen Threadripper CPUs. Pacific W6 CPU Water Block features 0.2mm micro-fin internal structure, anti-corrosive nickel plating and high-quality PMMA cover, as well as a built-in temperature sensor to deliver the real time CPU water block temperature for security. W6 is not only equipped with top-notch inner components but also has a gorgeous RGB appearance. The water block features 16.8 million colors LED supported by TT RGB Plus Software, Amazon Alexa Voice Service and Razer Synapse 3 (Razer Chroma). Pacific W6 CPU Water Block provides ultimate cooling performance while shines in 16.8 million RGB colors.

## TT RGB PLUS

TT RGB PLUS Ecosystem is the intelligent lighting system for PCs that combines the most advanced addressable LED lighting with Thermaltake's patented TT RGB PLUS Software. TT RGB PLUS ecosystem provides nearly unlimited possibilities for playing with colors, synchronizing lights to games, music, CPU temperatures or other TT RGB PLUS products, including case fans, CPU/VGA waterblocks, AIO CPU coolers, PSUs, LED strips and peripherals. The patented software allows users to change the light modes, colors, speeds, brightness, fan speeds, and even supports AI voice control in iOS and Android devices.

## Patented TT RGB PLUS Software&App

Monitor the fan performance, adjust the fan speeds, and customize the lighting effects for Thermaltake Plus RGB liquid cooling products with the patented TT RGB PLUS Software and an exclusively designed mobile app. Choose a function from below and scroll down to read the details.

Taiwan Patent: 105216989

\*Compatibility:

- For desktop: Requires TT RGB PLUS Software 1.1.5 version or later.
- For iOS: Requires iOS 10.0 or later.
- For Android: Requires Android 6.0.0 or later with screen resolution 1920 x 1080.

### Sync ALL, Say 'Hello TT' Thermaltake AI Voice Control

Talking to TT RGB PLUS App is an easier faster way to set lights for your systems. You can talk to it to turn the lights on or off, adjust light modes, change the light's color, RGB zones or adjust light's speed or fan speeds.

**Download TT RGB PLUS App**  
For Android: Requires TT RGB PLUS Software 1.1.1 version or later.  
For iOS: Requires iOS 10.0 or later.  
For Amazon: Requires Android 5.0.0 or later with screen resolution 960 x 540.

### Profiles

Conveniently control all devices and customize the lights of the same time by setting up to the profiles for each controller. Each controller your system connected is displayed on the top left of the interface for you to quickly select. Within each profile you can check which device is used to make operations more and lighting effect to use. Save SAVED and apply the settings to other controllers your system is working.

### Digital Lighting Controller

The controller is designed with a DIP switch on the back. However you can not switch to each controller mode. You can control all devices to one lighting controller and up to 16 controllers in the software. The controller and the coding guide are included in all packs.

\*It is recommended to connect up to 16 controllers on one peripheral controller only.

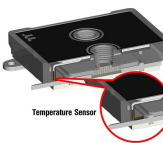

### Anti-Corrosion Design with Mirror-Finished CU Base

Manufactured with Thermaltake's highest quality standards, the Pacific RGB CPU Water Block's specially processed copper base has an aluminum-recess design with anti-corrosion coating that provides exceptional heat transfer and anti-corrosion protection for the most demanding use conditions.

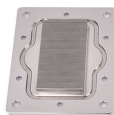

### Built-in Water Temperature sensor

Pacific RGB CPU Water Block is equipped with a built-in water temperature sensor that detects the temperature of the coolant and flows through the CPU water block and shows the real-time data for users to watch over on the software TT RGB PLUS software.

Temperature Sensor

### 0.2 mm Micro-Channel Structure

Pacific RGB CPU Water Block features 0.2mm micro-channel structure for constant channels and heat dissipation.

### No-Fuss Expansion

Designed to fit into 150mm standard height CPU Water Block allows enthusiasts to build superior water cooling systems with an aesthetic appearance as well as incorporate flexible chassis options for the future.

### TT RGB PLUS Software

2.0: New version of Thermaltake's TT RGB PLUS software, providing more lighting effects and PC monitoring features.  
1.0: Thermaltake's original software to synchronize TT RGB PLUS products with addressable LEDs.

Supports TT RGB PLUS 2.0 and TT RGB PLUS 1.0 full compatible use condition. Users can only install one version of TT RGB PLUS.

### TT AI Voice Control

Give you full control over the TT RGB PLUS products with your voice. "Hello TT, Sync ALL, Say Hello TT"

Download on the App Store. GET IT ON Google play

Note: TT AI voice control, Razer Chroma and Amazon Alexa requires the use of at least one TT RGB PLUS software installed product for function.

## Specifications

---

### More Information

	CL-W225-CU00SW-A
	117 L * 85 W* 26.2 H mm
	400 g
	2.4 W
	AMD:TR4 (CPU Socket)
	4-Pin Molex
	5 V
	G ¼"
	Copper + PMMA

## Additional Information

---

Brand	Thermaltake
SKU	CL-W225-CU00SW-A
Weight	1.0000
Color	RGB
CPU Series	AMD TR4 (Threadripper)
Block CPU Type	AMD
Block Style	Copper
