

Thermaltake Pacific Core P5 DP-D5 Plus Distro-Plate with Pump Combo

\$299.99

Product Images

Short Description

The Pacific Core P5 DP-D5 Plus is a Liquid cooling Distribution plate and D5 pump combo unit built for the Core P5 chassis. This simplifies the tube structure of hard tubing water cooling and adds a smarter way for beginners and experienced modders to present their water-cooled builds.

Description

Full RGB Illumination Design

The built-in 48 addressable LEDs feature great light coverage. The lighting is compatible with TT RGB PLUS and ASUS, GIGABYTE, MSI, and ASROCK RGB software.

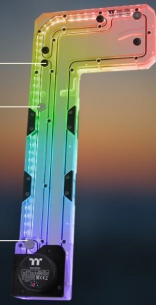

Straightforward Installation

Compatible with the Core PS Chassis

CPU Waterblock

GPU Waterblock

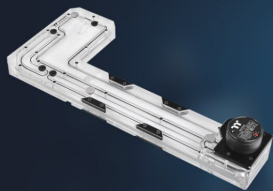

Drain

Wave Mode

Vivid RGB Lighting from Every Angle

Controlled by the patented TT RGB PLUS Software and the app, DP100-D5's 48 LEDs light up the distro with stunning customizable RGB lighting.

High quality 18mm thick PMMA

The reservoir is made with 18mm thick PMMA which guarantees quality and pressure resistance.

D5 Pump

The D5 Pump on the DP-D5 Plus features exceptional performance and unrivalled reliability, having a lifecycle of 50,000 hours MTBF.
