

# Singularity Computers Fan-Node - 2x4

\$17.00

## Product Images

## Short Description

A custom designed Singularity Computers hub with high quality components and a dual layer PCB. The PCB and connectors are black with white logos and labelling. It has a PWM input which is split into 8 PWM outputs in two rows.

## Description

---

A custom designed Singularity Computers hub with high quality components and a dual layer PCB. The PCB and connectors are black with white logos and labelling. It has a PWM input which is split into 8 PWM outputs in two rows. This hub draws power from the PWM input, so it does not require any extra power connections. It comes with a PWM cable to connect the hub to your motherboard or other device.

## Specifications

---

Specifications & Included Items:

SC Fan-Node 2x4. Black Dual Layer PCB.

Inputs: PWM x1.

Outputs: PWM x 8 in two rows.

Cable: Black Sleeved PWM 500mm.

PCB Dimensions: L45mm x W25mm x H15mm.

Packaged Dimensions & Weight: L150mm x W100mm x H20mm. 0.04kg.

Installation:

Connect the PWM Input to your motherboard or another compatible devices using the included cable.

Connect your fans to the hub.
