Description

Define 7 Compact

Re-defining efficiency.

The new Define 7 Compact takes the strongest features of the contemporary 7 Series design and places them in a conveniently compact frame.

Highly modular for its size, the Define 7 Compact is easily customizable to meet your exact needs – and the instantly removable top panel ensures an easy build, even with high-end components.

Features

Re-defining efficiency

A cleaner look

Brushed aluminum front and three interchangeable side panels give a very clean look.

Compact yet spacious

The minimalist look of the Define 7 Compact allows you to maximize the potential of the small footprint with full-size ATX hardware to meet your exact needs. For example, you can easily fit 600W up to 1000W PSU with a 240mm radiator in the top – or up to 360/280mm front radiators with CPU(s) under 300mm.

Remarkably quiet

- Solid construction with industrial high-density sound damping helps maintain whisper-quiet operation.
- Interchangeable front and top-facing side panels offer a clean, replicable look.
- Top-panel airflow swings from solid steel to filtered ventilation.

Substantial cooling

- Install up to 7x 120mm or 4x 160mm fans and radiators up to 360mm.
- Up to 200mm post-processor (optional) ATX fans included.
- Top-mounted PSU shroud with two-point removable cover for optimal coverage and front radiator support.

Robust Front I/O

Two rows of ports including a new charging USB-C Type-C port and 10 Gbps.

Concealed storage

Two rows of USB-C ports, including a new charging USB-C Type-C port and 10 Gbps.

More in store

A total of 100mm of storage space and a 100mm of storage space.

Front, top and base

Easy to remove top and bottom panels.

Open access

Easy access to the front and back of the PC case.
