Short Description

Tek-Chain's all new Aluminum Frame case fans have the looks and the functionality most performance users require. Let the four super bright LEDs dazzle in your windowed case, while the aluminum body of the fan helps to dissipate heat from your system. The unique built-in mini fan controller means you no longer need a separate fan controller to increase/decrease fan speed. Note that the quad blue LEDs stay bright, even if you reduce the fan's speed to it's lowest setting.

Fan cable is fully covered in nylon Techflex sleeving and premium heatshrink, colors of your choice.
