

ae Professional Self-Healing, Double-Sided PVC Cutting Mat - A3 (45x30cm)

\$22.95

Product Images

About thickness: 32MM
Weight: 633 grams

Capricious and flexible

Short Description

Beautiful green color and measurements and geometry on both sides of the mat to aid in your cuts. Five layers of PVC give these QJH Professional Self-Healing Cutting Mats maximum self-healing capability and prolonged life. The 1/8" surface also prevents cutting blades from becoming dull. Each mat contains inch and metric measurements, scale lines for diagonal cuts, and 1/2" grid lines on the top surface, making them the perfect work surface for cutting, drawing, and any modifications. Made of high quality PVC, protect the blades, prolonging the service life of your blade with these special made self healing mats. The cutting mat can also make your cutting work more convenient and smooth, can be easily cut a straight line on the cutting mat without a ruler! This is a "Must Have" for any computer enthusiast for building, assembling or modifications to the case, wires, or other components. Dont damage your tables and desk...use a self healing

mat!

This is the BEST self healing mat we have ever tried and is used in house at PPCS. Its indestructable!

Description
