

Cooler Master RR-DCH-S9U1-GP Hyper TX CPU Cooler for AMD - Sleeved

\$29.95

Product Images

Short Description

The Cooler Master RR-DCH-S9U1-GP Hyper TX CPU Cooler is compatible with latest CPUs. This cooler offers a comprehensive cooling solution with greater airflow, silent operation, and easy installation. The aerodynamic shroud allows the cooler to simultaneously cool the voltage regulators and capacitors on your motherboard. The unique frame on the fan allows for greater airflow.

Description

The Cooler Master RR-DCH-S9U1-GP Hyper TX CPU Cooler is compatible with latest CPUs. This cooler offers a comprehensive cooling solution with greater airflow, silent operation, and easy installation. The aerodynamic shroud allows the cooler to simultaneously cool the voltage regulators and capacitors on your motherboard. The unique frame on the fan allows for greater airflow.

Features

- Comprehensive Cooling Solution: Cools CPU and the surrounding components
- Compatible with AMD Socket AM2
- Super silent CPU cooler at only 22 dBA.
- Copper-based and aluminum heat sink with 3 embedded heat pipes design provides excellent heat dissipation
- New 90 mm fan blade and frame design produces greater airflow as 100 mm fan
- Easy installation design without removing the motherboard

Specifications

Socket Type	AMD Socket 754/ 939/ 940 / AM2
Fan Speed	650 ~ 1800 R.P.M.
Fan Dimension	92 x 92 x 25mm
Sound Pressure Level	22dBA
Fan Air flow	41.76 CFM
Bearing Type	Long life bearing
Fan Life Expectancy	40,000 hours
Heat Sink Dimension	90 x 44 x 136.5mm
Heat Sink Material	Aluminum Fin
Weight	452 g
Connector	4 pin
Fan Speed Adjustment	Intelligent Fan Speed controller

Additional Information

Brand	Cooler Master
SKU	RR-DCH-S9U1-GP
Weight	2.5000
Material	Copper/Aluminum
Fan Dimensions	92mm
Fan Connection	4-Pin PWM
