Short Description

Singularity Computers Shift 24pin, EPS and PCIE adapters are designed for use with the SC PowerBoard but

can be used with any components or cables. The PCBs are custom designed with high quality components and a dual layer PCB. The PCB and connectors are black, and the PCBs have white logos and labeling. SC Shift Adaptors provide a range of options for cleanly routing your cables.

Description

Singularity Computers Shift 24pin, EPS and PCIE adapters are designed for use with the SC PowerBoard but can be used with any components or cables. The PCBs are custom designed with high quality components and a dual layer PCB. The PCB and connectors are black, and the PCBs have white logos and labeling. SC Shift Adaptors provide a range of options for cleanly routing your cables.

There are 4 types of 6pin and 8pin PCIE adapters because different GPU manufacturers mount the PCIE connectors facing different directions. Also, what you are connecting to on the other end may have the connectors facing a different direction such as the SC PowerBoard. Select from the adaptor range after planning out the motherboard and GPU you are using, if you are using horizontal or vertical GPU mounting and if you are using an SC PowerBoard.

Features

Experience Singularity:

We create the products we want in our builds based on our 15 years of experience building high end computers. All our designs begin with function, versatility is vital to increase the possibilities so that you can create the build you want to, something unique. Our products are premium, we do not hold back on quality to save cost. All our products use the most high-end available materials and manufacturing processes. Our vision is to continue to introduce unique and exciting ideas, to inspire and lead the industry.

Specifications

Specifications & Included Items:

- SC PCIE 180 Degree Adaptor: Black PCB and Connectors with white logos and printing.
- Dimensions: H: 15mm x W: 19mm x L: 34mm.
- Weight: 0.01kg.
- Packaged Dimensions: H: 15mm x W: 45mm x L: 90mm.
- Packaged Weight: 0.01kg.

Installation:

Install onto the GPU PCIE connectors. We have 4 different types for 6pin and 8pin PCIE with connectors facing different ways. U+U stands for Up Up meaning both connectors are facing up, D+D stands for Down Down meaning the connectors are both facing downwards, and so on.

When selecting the version you need, check which way the PCIE connectors on your GPU are facing and decide how you want to mount your GPU horizontally or vertically. Also if you are using an SC PowerBoard

you can check which way the connectors are facing on the PowerBoard version you are using. Then you can select the SC Adaptors which suit your configuration for clean cable runs which are not twisted.
