Short Description

The CORSAIR Hydro X Series XC8 RGB PRO CPU Water Block, developed in partnership with JayzTwoCents, combines premium construction, custom forged carbon styling and vivid RGB lighting

Description

XC8 RGB PRO JTC IS READY FOR THE LATEST FROM INTEL® & AMD

The CORSAIR Hydro X Series XC8 RGB PRO CPU Water Block, developed in partnership with JayzTwoCents, combines premium construction, custom forged carbon styling and vivid RGB lighting

A bare copper cold plate, combined with an innovative quad-split flow design, efficiently draws heat away from your CPU for maximum performance on any platform.

Features

Features

Features	<p>A precision-machined copper cold plate with more than 110 high-efficiency micro-cooling fins, combined with an innovative quad-split flow design, efficiently draws heat away from your CPU.</p> <p>Designed in collaboration with JayzTwoCents, with forged carbon hydrographic print paired with all-black bracket and screws, the XC8 RGB PRO is the center of attention in your loop.</p> <p>Built from durable nylon with reinforced standard G1/4" threads, the XC8 RGB PRO will keep your CPU running at its best, and coolest, for years to come.</p> <p>16 RGB LEDs deliver stunning customizable RGB lighting effects over eight zones. Add a CORSAIR iCUE Controller (sold separately) and powerful CORSAIR iCUE software to customize and sync RGB lighting across all your iCUE-compatible products including other water blocks, pumps, fans, keyboard, and more.</p> <p>Includes a 5V ARGB motherboard adapter cable to alternatively control lighting via compatible motherboards.</p> <p>Easy and fast installation on Intel LGA 1700, LGA 1200 and AMD Socket AM4 with pre-installed mounting screws and pre-applied thermal material.</p>
