Short Description

Singularity Computers Wraith 2.0 is a compact case still capable of housing a high-end liquid cooled system.

Over the past 2 years since Wraith was launched, we have been developing Wraith 2.0 with the features customers have been requesting and a complete design update to all parts of the case.

Description

Singularity Computers Wraith 2.0 is a compact case still capable of housing a high-end liquid cooled system. Over the past 2 years since Wraith was launched, we have been developing Wraith 2.0 with the features customers have been requesting and a complete design update to all parts of the case. It now has 3 expansion slots, more space for SFX-L PSUs, a PCIe 4.0 Vertical GPU Riser, increased ventilation on all outer panels and many design tweaks to improve performance and component compatibility.

The case aesthetics have been updated with an all-new Distribution Plate design which includes a new reservoir design for improved filling and bleeding of the loop. All metal components have been redesigned. Wraith 2.0 has two PSU locations, the one on the rear panel is for a future Wraith 2.0 version and add-on which is coming for the case, but cannot be used with the distribution plate.

Features

Wraith Features

- Singularity Computers Liquid Cooling Integration.
- Integrated Reservoir, D5 Pump Top, D5 Pump Cover, Fill Port, Drain Port, and half of the cooling loop.
- Designed so that the integration does not restrict compatibility.
- All components CNC machined from a solid block of material.
- Built from 6061 Anodized Aluminum, Cast Acrylic and Stainless Steel.
- Aluminum is Anodized for the most durable and resistant finish.
- All stainless-steel fasteners.
- Uses gaskets instead of O-rings for increased durability.
- Fits 2x 240mm 30mm thick radiators.
- Adjustable radiator mounts to align the radiator ports to the integrated liquid cooling ports.
- The Reservoir is designed for easy filling and bleeding.
- The Drain Port is at the lowest point and the fill port is at the highest point for easy filling and draining.
- External fill port for easy access, internal drain port so that drain valve does not protrude from the case.
- 9 x 2.5" and 1 x 3.5" drive capacity.
- Vertical GPU Mount.
- The entire manifold glows with the addition of a single LED Strip. Two 30cm ARGB LED Strips are included.
- Front lighting feature.
- Cable shroud means custom cables are not necessary.
- Modder friendly, no rivets, low component count, easy to assemble and disassemble.
- Fits full length and ultra-wide GPUs
- Fits full sized SFX-L PSUs.
- Fits ITX and DTX Motherboards.

Specifications

Specifications

- Motherboard Form Factor: Mini-ITX, Mini-DTX
- Case Dimensions: 407mm x 407mm x 170mm (including legs)
- Package Dimensions: 450mm x 500mm x 120mm
- Case Weight: 7kg
- Case Packaged Weight: 8kg.
- Expansion Slots: x3.
- Storage: 2.5" x9, 3.5" x1.
- PSU Compatibility: SFX, SFX-L.
- Radiator Top: 240mm x30mm.
- Radiator Front: 240mm x30mm.
- Maximum GPU Length: 300mm.
- Maximum GPU Thickness: 3 slots.
- Maximum GPU Width: Fits the widest GPUs.
- Maximum PSU Length: 170mm. (With the top cable shroud removed any size SFX-L PSU can be used without limitation).
- Maximum CPU Cooler Height: 130mm
- Front Panel I/O: Vandal Switch 16mm.
- Fitting's compatibility: G1/4" BSPP Standard.
- Fittings: Click [here](#) for more details
- Pump compatibility: All D5 Pumps (Pump Not Included).
- Vertical GPU Mount: Included Singularity Computers PCIE 4.0 Riser Cable.
- Materials: 6061 Anodized Aluminum, Cast Acrylic, Stainless Steel.
- Manufacturing Process: CNC Router, CNC Mill, CNC Lathe.

Included Items

- Wraith 2.0 Case.
- Reservoir.
- D5 Pump Top.
- D5 Pump Cover.
- D5 O-Ring.
- Fill Port.
- Drain Port. (Needs Valve).
- Stop Fittings x2.
- Power Cord with 90 degree connector.
- Vertical GPU Mount with PCIE 4.0 Riser.
- Acrylic Side Panel Window.

Additional Information

Brand	Singularity Computers
SKU	SC-WRAITH-2-SL
Weight	18.0000
Color	Silver
Chassis Form Factor	Mini-Tower
Side Panel	Window
Motherboard Support	Mini DTX, Mini ITX
Material	Acrylic, Aluminum, Stainless Steel
PSU Wattage	No PSU
Special Price	\$721.65
