Short Description

The Magicool Radiator is essentially a Black Ice Pro radiator with the size width of 120mm cooling fans. There are no extra channels or metal past the 120mm fan frame so this makes for a great radiator for cases where space is a premium. The Magicool rad uses a full copper-finned core with a high-density louvered copper fin configuration, flat tubes for maximum coolant-core heat conductivity, built-in mounting brackets and plenum chamber with taptight screwholes for outstanding cooling performance that fits perfectly inside your PC.

Description

The Magicool Radiator is essentially a Black Ice Pro radiator with the size width of 120mm cooling fans. There are no extra channels or metal past the 120mm fan frame so this makes for a great radiator for cases where space is a premium. The Magicool rad uses a full copper-finned core with a high-density louvered copper fin configuration, flat tubes for maximum coolant-core heat

conductivity, built-in mounting brackets and plenum chamber with taptight screwholes for outstanding cooling performance that fits perfectly inside your PC.

Now with customizable fittings for 3/8" ID and 1/2" ID!

Specifications

- Material: copper lamellae, pre-chambers of brass
- 2-pass Radiator specifically developed for PC watercooling
- Now with improved internal pressure drop for increased cooling efficiency.
- Dimensions: (L x W x H): 273.5 x 120 x 30mm
- Connections: G1/4"
- Weight: approx. 900g
- Mounting options: 8x M3 thread at the top (for 2x 120mm fan), 8xM3 thread at the bottom (for 2x120mm fan)
- Pressure tested: 8b
- Connection: 2x threads G 1/4 inch
- Warranty: 2 years on tightness and processing
