Description

Details

EK-Quantum Magnitude Frame Upgrade Kit - 1700 Silver is a replacement/Alternative aluminum mounting frame for EK-Quantum Magnitude 1700 CPU water blocks.

The mounting frame is a three-dimensional X-shaped aluminum piece that makes the screws a seamless part of the water block. Strong edges and chamfers root this award-winning icon firmly among the EK-Quantum line. The kit contains all necessary mounting screws, as well as an AM4 insert, and is available in the Silver and Black variants.
