Designed and manufactured in the USA by Performance PCs.

This distroplate pump res combo is specifically designed to fit into the Asus ROG Strix Helios case on the side next to the motherboard. Featuring 9 Ports total, designed to be used with 1 or 2 radiators and integrated D-RGB for stunning lighting effects. This distro plate is also compatible with standard D5 or DDC pumps.

Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Service! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

Features

Installation:

Remove the multi function cover, back cable cover, front PSU extended cover and HDD Rack. With these removed you can install the distro using the slot where the mult function cover was installed. Insert the the 2 M4 x 8mm screws through the included washers and into the top of the distro through the back of the case do the same using the M4x10mm screws through the bottom of the distro.
