Short Description

1000ml red transparent coolant for PC water-cooling, offering superb protection for copper, nickel, brass, and aluminum.

Thermaltake T1000 Coolant - Red "Formulated to Impress"

Thermaltake T1000 Transparent Coolant Series is designed with TT latest formula to be used as anti-corrosion protection fluid and heat-transfer medium for PC water-cooling. With transparent colors, T1000 allows users to create unique colors by adding TT Premium concentrate. The new formula provides T1000 Coolant Series with color stability and low viscosity that enables effective flow. Thermaltake T1000 Coolant Series encourages users to create your own colors for your system!

Tt LCS Certified

Tt LCS Certified is a Thermaltake exclusive certification applied to only products that pass the design and hardcore enthusiasts standards that a true LCS chassis should be held to. The Tt LCS certification was created so that we at Thermaltake can designate to all power users which chassis have been tested to be best compatible with extreme liquid cooling configurations to ensure you get the best performance from the best features and fitment.

Better Formula, For a Better System

T1000 Coolant Series is formulated with Thermaltake's latest formula to create ultimate performance. The new formula minimizes the possibility for precipitation to ensure clear coolant flow for your system. Other qualities such as antifreeze and corrosion protection for copper, brass, nickel, and aluminum ensures superb performance for T1000 coolant.

Anti-Corrosive Solution

Being non-flammable, T1000 Coolant is a ready-to-use cooling solution with at least 3 years shelf life in airtight containers, providing great performance while preventing the entire cooling system – copper, brass, nickel, and aluminum – from corrosion.

Clearly Colorful

T1000 Coolant Series comes in seven transparent colors; red, blue, purple, orange, acid green, green and yellow. Our formula ensures color saturation, stability and duration..

Eco-Friendly

T1000 Coolant Series is GREEN! Made with biodegradable materials, T1000 does not pollute the environment or bio accumulates. Thermaltake produced the T1000 Coolant Series with the environment in mind.

Specifications

	CL-W245-OS00RE-A
	1000 ml
	Red
	1,2-Propanediol < 6% CAS 57-55-6 EC 200-338-0

Additional Information

Brand	Thermaltake
SKU	CL-W245-OS00RE-A
Weight	2.5000
Color	Red
Fluid Type	Pre-Mixed Fluids
Volume	1 liter
