Description

For those of you looking to bring extra customization to your LIAN LI O11D XL cases, Bitspower offers a customized reservoir and pump combo under the name of Bitspower Sedna O11DXL. Designed to replace the front panel of the case, this distribution reservoir features a powerful pump that will keep your liquid moving at the right pace, and a mirror silver finish, that will turn your case in a work of art.

With novice modders in mind, Bitspower designed a reservoir that is easy to install while providing a professional look. Equipped with multiple 1/4" water inlets and outlets to route the water from the radiator to the VGA than the CPU, this customized reservoir also gives you more playroom for the graphics card location with a dual inlet/outlet designed to prevent having to bend more tubes and create a cleaner look to your loop.
