LIAN LI Strimer Plus V2 24 Pin Addressable RGB VGA power cable

$69.99

Product Images

Short Description

The design of Strimer Plus V2 is thinner and more flexible than ever, and the braided cables are replaced with high-end silicon-covered cables.

Description

The design of Strimer Plus V2 is thinner and more flexible than ever, and the braided cables are replaced with high-end silicon-covered cables.
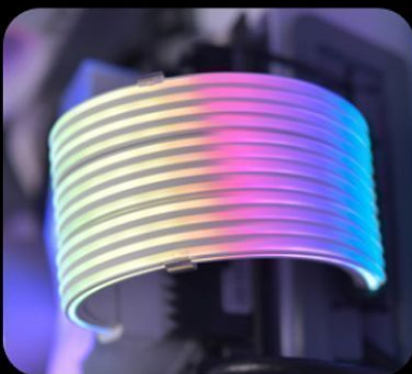

Features

Strimer Plus V2
UNLOCK YOUR IMAGINATION

THREE TYPES ARGB EXTENSION CABLES

Evolution of the award-winning STRIMER and STRIMER PLUS that puts the finishing RGB touch on your PC.

STRIMER PLUS V2 24-PIN
for motherboard connector

STRIMER PLUS V2 3×8-PIN
for triple 8 PIN GPU connector

STRIMER PLUS V2 8-PIN
for dual 8 PIN GPU connector

LAST PIECE OF AN RGB SET-UP YOU NEED

Upgrade your RGB in your PC with the ARGB extension cables.

Next Level of Brightness

Introduce a new side light strip, brightening STRIMER PLUS V2 in different ways.

STRIMER PLUS V2

STRIMER PLUS V1

4/24/24

Numerous LEDs

Allocating many LEDs evenly to glow your build with complex lighting effects.

STRIMER PLUS V2 24-PIN

120 LEDs

STRIMER PLUS V2 3X8-PIN

162 LEDs

STRIMER PLUS V2 8-PIN

108 LEDs

Smooth Lighting Style

Illuminate the STRIMER PLUS V2 with a sleek design by reducing the lighting strips width to 2.1mm.
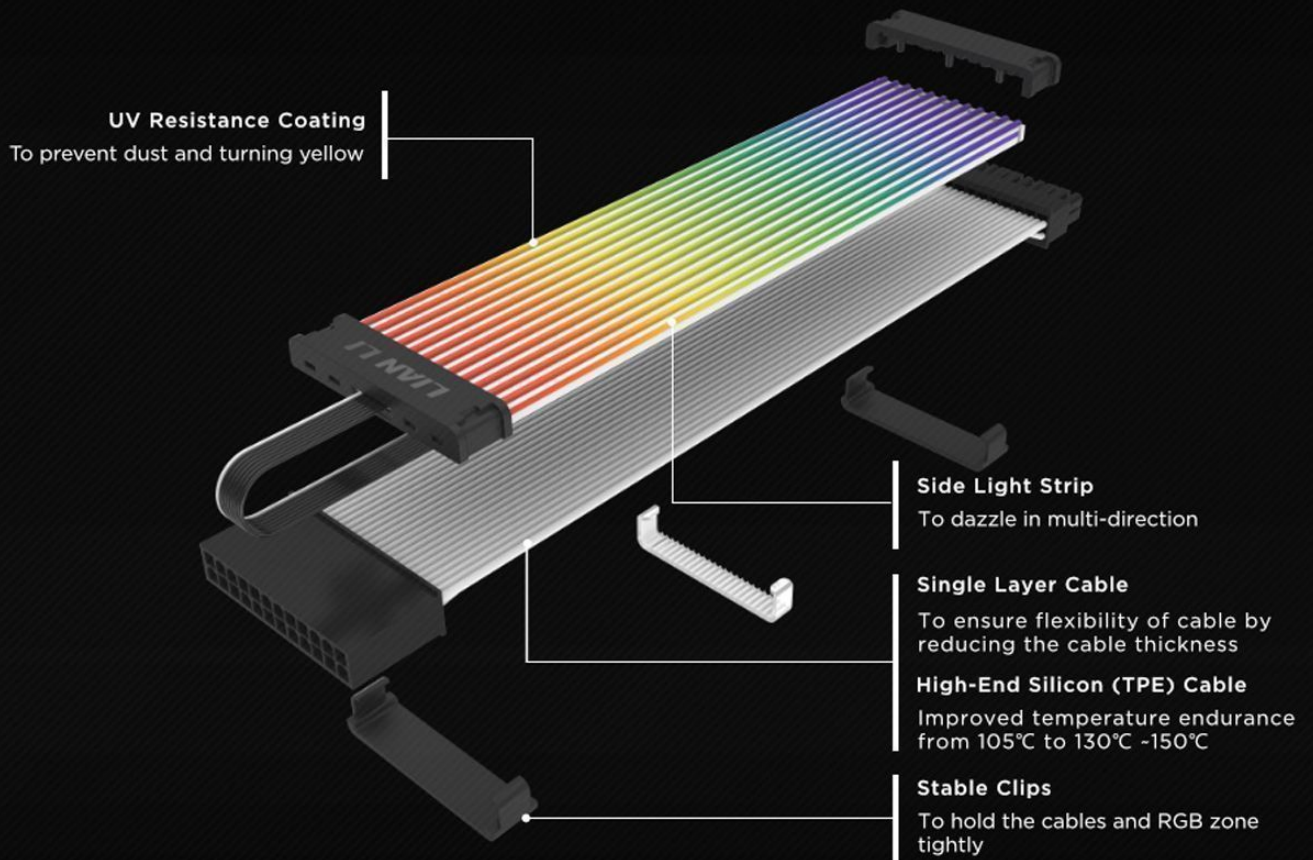

2.1mm

2.8mm

STRIMER PLUS V2

STRIMER PLUS V1

HIGH QUALITY DESIGN

The well-engineered product that glows with quality.

UV Resistance Coating
To prevent dust and turning yellow

Side Light Strip
To dazzle in multi-direction

Single Layer Cable
To ensure flexibility of cable by reducing the cable thickness

High-End Silicon (TPE) Cable
Improved temperature endurance from 105℃ to 130℃ ~150℃

Stable Clips
To hold the cables and RGB zone tightly

Slim and Flexible

The thickness of the RGB zone and the cable on the V2 are reduced to 8mm, ensuring flexibility for all kinds of configuration.
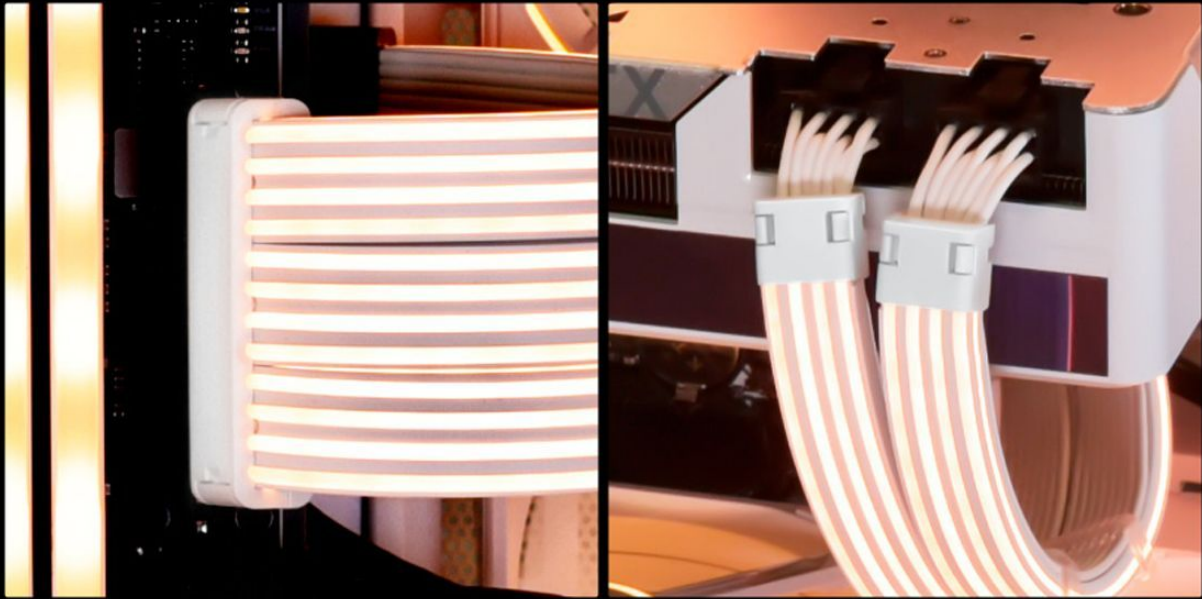

STRIMER PLUS V2

STRIMER PLUS V1

8mm

11mm
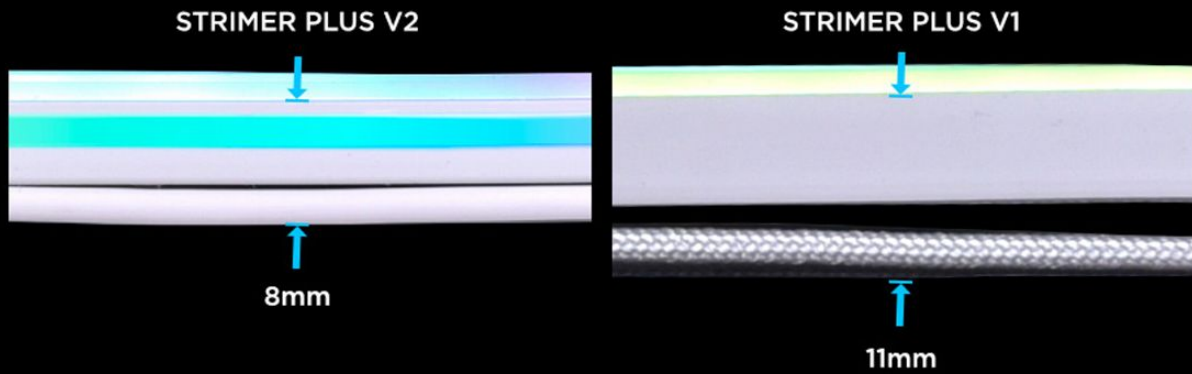

Separated GPU connector header

To accommodate GPUs with power connectors that are further apart, both the STRIMER PLUS V2 8-PIN and Triple 8-PIN feature 8-pin blocks that are independent of each other.

Match the Color of your Build

Includes extra white clips to match the hardware color inside your PC.
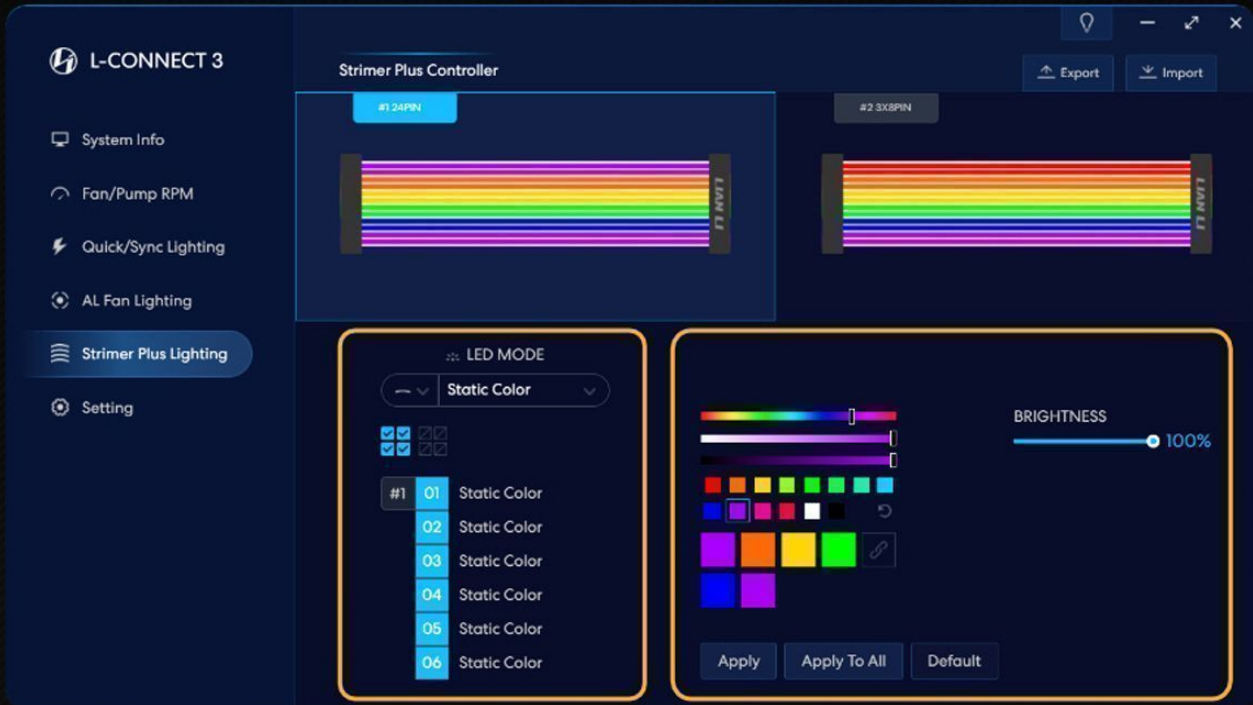

Specifications

L-CONNECT 3 SOFTWARE TO CONTROL STRIMER PLUS V2

Full control and preview the lighting effect of the STRIMER PLUS V2 with the L-Connect 3 interface.

Download L-Connect 3: https://www.lian-li.com/L-connect3

**Select combination / Individual lghting effects**

Set personalized color / brightness / speed / direction

UNLOCK YOUR IMAGINATION OF LIGHTING EFFECTS

Without the need of opening the case, STRIMER PLUS can now be controlled via the L-Connect 3 software with 11 Individual modes and 13 combined lighting modes. The highly customizable software brings the option of setting different sophisticated lighting effects on each STRIMER PLUS or even on each channel (2 light strips).

Combined Lighting Effects

Display your PC with the new combining lighting effects.

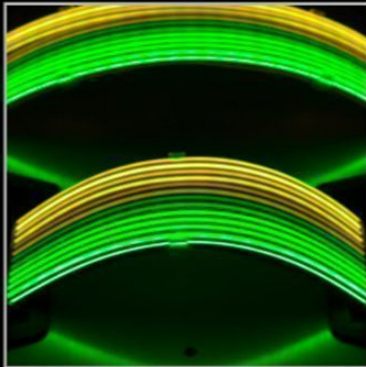

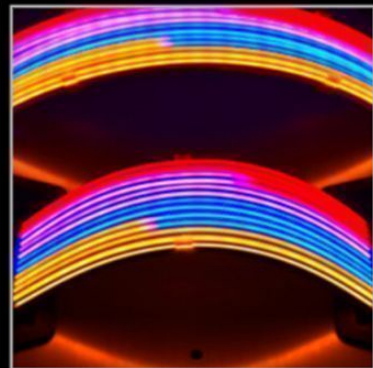

Fade Out
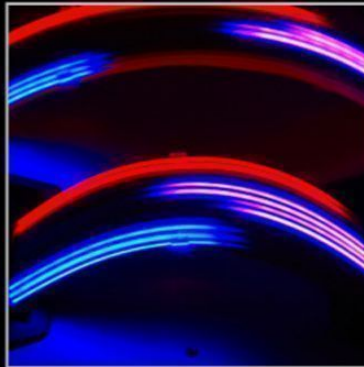

Contest

Cross Over

Bullet Stack

Twinkle

Parallel

Wave
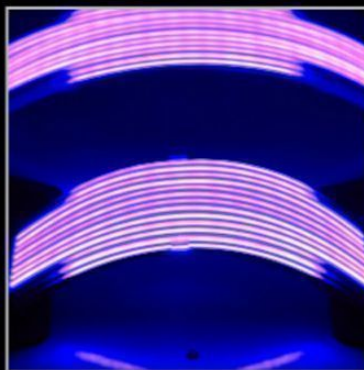

Ripple

Voice

Individual Channel Lighting Effects

With 24-pin at 6 channels, the Dual 8-pin at 4 channels, and the triple 8-pin at 6 channels, plenty of personalized light effects can be accomplished by L-Connect 3.

1. Tide
2. Breathing
3. Static Color
4. Runway
5. Mixing
6. Rainbow

Quick Sync with UNI FAN SL and AL

Quick sync function saves time to sync all LIAN LI device lighting effects at one click. Moreover, sync all devices to the motherboard software.

CONTROL STRIMER PLUS IN ONE GO

The controller that is included in STRIMER PLUS V2 24-PIN can be connected to an 8-PIN or Triple 8-PIN, offering full control of both cables via L-Connect 3.

Triple 8pin ⟵ **Switch** ⟶ 8pin

Connect to
STRIMER PLUS (V1,V2) Triple 8PIN

Connect to
STRIMER PLUS (V1,V2) 8PIN

Connect to
STRIMER PLUS (V1,V2) 24PIN

1 **Connect to PSU STAT Cable**
