Select combination /  
Individual lighting effects

Set personalized color / brightness /  
speed / direction

## Quick Sync with UNI FAN SL and AL

Quick sync function saves time to sync all LIAN LI device lighting effects at one click. Moreover, sync all devices to the motherboard software.

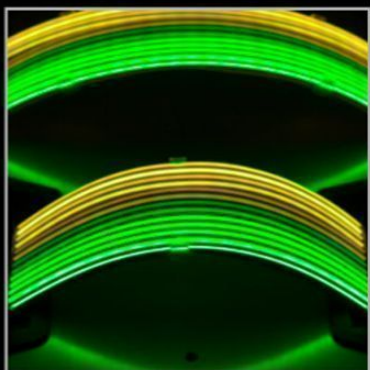

# UNLOCK YOUR IMAGINATION OF LIGHTING EFFECTS

Without the need of opening the case, STRIMER PLUS can now be controlled via the L-Connect 3 software with 11 Individual modes and 13 combined lighting modes. The highly customizable software brings the option of setting different sophisticated lighting effects on each STRIMER PLUS or even on each channel (2 light strips).

## Combined Lighting Effects

Display your PC with the new combining lighting effects.
