

Stealkey Customs Front Plate for Lian Li O11D XL - SK2 + D5 Adapter

\$349.95

Product Images

Short Description

The Stealkey Front Plate for the Lian Li O11D XL replaces the tempered glass panel in the front, just like its

predecessor. The mounting aids glued into the reservoir make installation effortless. The same applies to the D5 pump. An adapter enables a precise fit by screwing the pump to the reservoir. This results in a tidy case and a compact water cooling system. Of course, the manufacturer also made sure that the RGB lighting can be used with the Lian Li O11D XL Front Distro Plate SK2. Everything is packed in a simple yet elegant design to give the water cooling system that certain something.

Description

The Stealkey Front Plate for the Lian Li O11D XL replaces the tempered glass panel in the front, just like its predecessor. The mounting aids glued into the reservoir make installation effortless. The same applies to the D5 pump. An adapter enables a precise fit by screwing the pump to the reservoir. This results in a tidy case and a compact water cooling system. Of course, the manufacturer also made sure that the RGB lighting can be used with the Lian Li O11D XL Front Distro Plate SK2. Everything is packed in a simple yet elegant design to give the water cooling system that certain something.

Features

Distro Plate SK2

Highly precise CNC-milled and assembled by hand in individual work. It is made of high-quality and transparent acrylic glass and enables connection to the graphics card and CPU/mainboard. Three 360 mm radiators can be installed without any restrictions (no installation height limit). Thanks to the unique plug-in system, the Distro Plate SK2 can be attached with two small screws and thus ensures easy installation and removal.

Features of the Lian Li O11D XL Front Distro Plate optimised for the Lian Li O11D XL case

- Simple and elegant design
- made of high quality acrylic glass
- perfected for D5 pumps of all types
- adapted for up to 3x360 radiators
