Short Description

Bloodfountain is a mastodon for distribution plate, or maybe almost more of a reservoir. With its volume of 1000 ml, it is a giant without its equal.

Description

Bloodfountain is a mastodon for distribution plate, or maybe almost more of a reservoir. With its volume of 1000 ml, it is a giant without its equal.

Features

Made of high-quality acrylic and a CNC-milled, sanded and anodized aluminum base plate, Bloodfountain fits perfectly with the Tower of Doom.

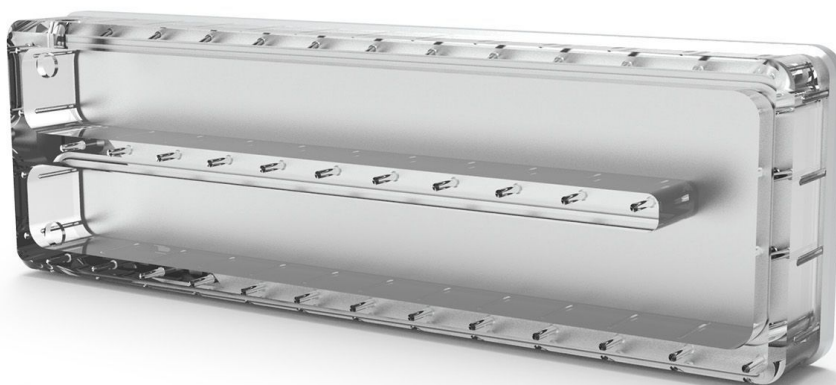

Each Bloodfountain is leak tested with air before it is packed and leaves our workshop.
