Short Description

Keep your notebook safe and secure with the Vantec Cable Locking System. With 6.5 feet of 3/8" coated steel cable, you can attach your delicate equipment to any secure object or surface you can loop around. The included security plate gives you the option of securing the cable to an area without a convenient attachment point. Its 4 position keyless combination lock gives you up to 10,000 different user-defined combination possibilities meaning you will never have to worry about keys. The Vantec Cable Locking System works with any device with a security lock slot and is the ideal way to keep your equipment where you left it.
