

# EK-Quantum Scalar<sup>2</sup> Terminal - Plexi

\$33.99

## Product Images

## Short Description

---

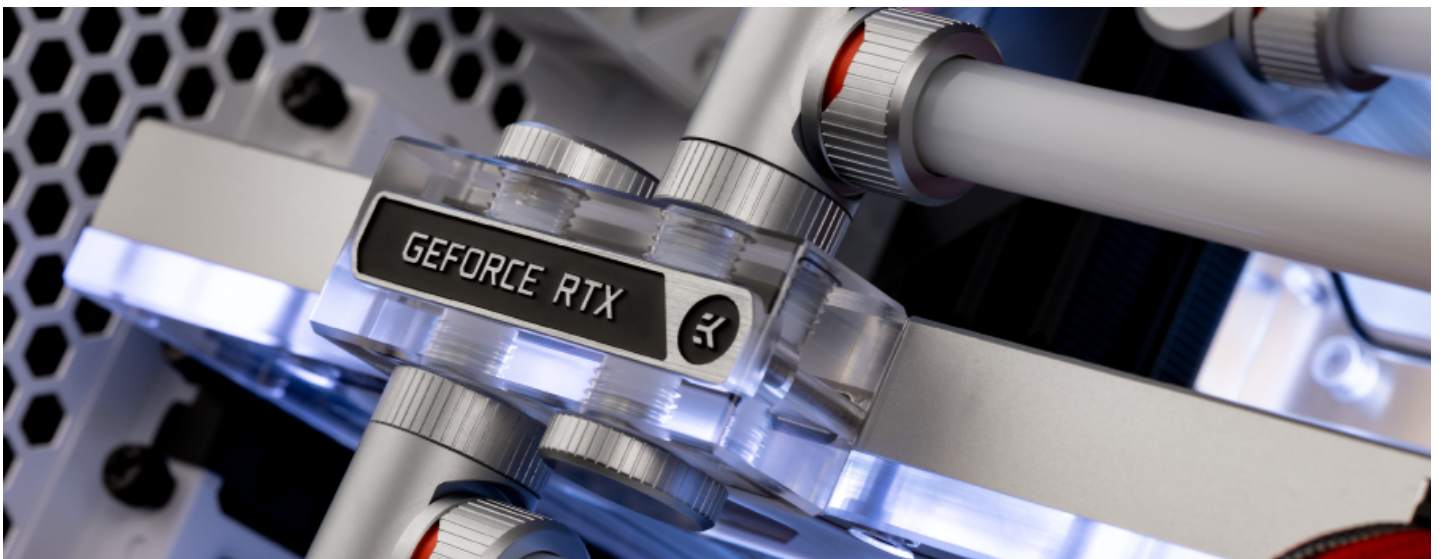

EK-Quantum Scalar<sup>2</sup> Terminal - Plexi is an acrylic terminal that replaces the stock black POM acetal terminal on the Vector<sup>2</sup> GPU water blocks. It has four G1/4" ports, two on the top and two on the bottom.

## Description

---

## Details

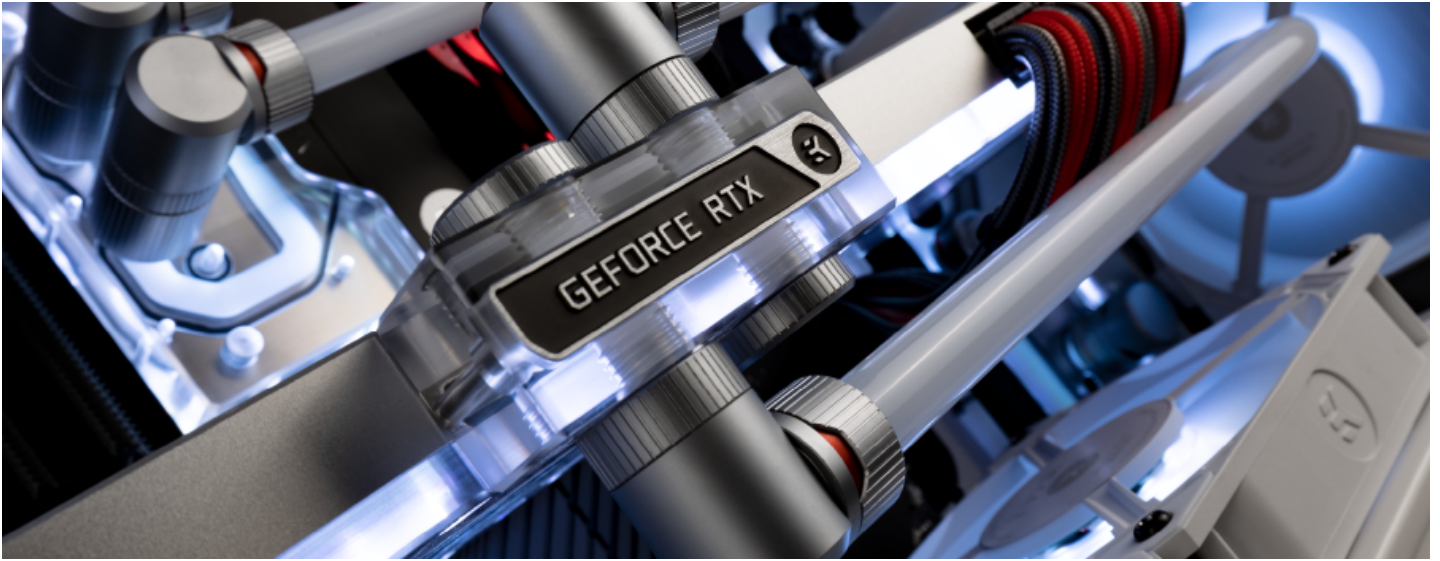

EK-Quantum Scalar<sup>2</sup> Terminal - Plexi is an acrylic terminal that replaces the stock black POM acetal terminal on the Vector<sup>2</sup> GPU water blocks. It has four G1/4" ports, two on the top and two on the bottom. Sleek magnetic covers can be used to conceal the terminal screws, they are re-used from the original terminal and not part of the package.

## Features

---

They allow rotation of the branding when the GPU water block is inverted in the case or is being used on a vertical GPU mount.

This terminal is CNC-machined out of glass-like cast acrylic.

## Specifications

---

Compatibility:

- Vector<sup>2</sup> GPU Water blocks

Technical Specification:

- Ports: 4 x G1/4"
- Dimensions (L x H x W): 72 x 25 x 27mm
- Material: CNC-machined Cast Acrylic

PLEASE NOTE:

- This product comes without screws and magnetic tactile plates. They are reused from the original terminal.

## Additional Info

	Plexi
	G1/4

## Additional Information
