Description

EK-Loot Mug: Mystic Fog is a ceramic mug with a capacity of 350 mL (12 oz). Its base color is white but features the artwork of the long-sold-out Limited Edition [EK-CryoFuel Mystic Fog](#) coolant bottle. It's ideal for those who like to add color and flair to their PC environment, especially if their PC is already boasting EK's bestselling RGB-reactive Mystic Fog coolant.

The mug can also be perfectly matched with the [grey EK-Loot Mousepad](#). It offers excellent performance at keeping your beverage hot for extended periods, which can be crucial during those long gaming or work sessions. One of its most premium features is user-friendliness for both right- and left-handed users. The cleaning procedure is quite simple, too.
