Short Description

The Bykski G1/4 Female to Female Quick Disconnect Fitting is used for making a disconnect seam in your loop.

Description

The Bykski G1/4 Female to Female Quick Disconnect Fitting is used for making a disconnect seam in your

loop. This fitting allows you to connect a G 1/4 thread fitting on either side allowing compatibility in any size tubing loop. Once integrated, the fitting can be disconnected without draining your coolant, allowing a multitude of maintenance and hardware swap tasks to be much easier.

- Brand: Bykski

Compatibility

- Loop: Non-Aluminum
- Compatible Thread: G 1/4

Parts Included

- 1x Bykski G1/4 Female to Female Quick Disconnect Fitting

Warnings

The most common usage scenarios use a pair of these fittings to allow a component to be removed for upgrade or maintenance. As with all quick disconnect fittings, a small amount of coolant can drip when disconnecting. Faster actuation results in less fluid escaping. Placing a towel below the fitting before use can help reduce potential risks.

Not responsible for any damage caused by or when using this product. Please use at your own risk.
