Short Description

Product Details:

Qpad Carbytek Hard Coat Gaming Mouse Pad - Black

The QPAD® EC-R™ is a robust but light weight hard-surface mouse pad, that gives gamers at the top of their sport the pinpoint accuracy and superior control they need. The rugged, medium rough Carbytek2™ surface strikes the ideal balance between glide and friction. EC-R™s ultra thin design gives the ultimate gaming experience and control. The back-side's bubble-structure ensures mouse pad stability even in the heat of the game. EC-R™ comes with QPAD® | Glidz™ and 3-D dome stickers. EC-R™ is like all QPAD® products designed in the spirit of gaming.

- *Carbytek2™ with micro-precision.
- *Ideal balance between friction and glide.
- *Bubble Structure with supreme stability.
- *Ultra thin wont miss a beat.
- *For professional users

“More than most hard-surface mousepads out there, the EC-R really gives gamers the pinpoint accuracy and control they need to perform at the peak of their sport,” says Christer Körnbäck, aka MrMouse, president of QPAD. “And we believe this mousepad is superior in this particular niche of lightweight, hard-surface mousepads.”

Features:

- Expanded sweet spot improves precision and speed
- Strikes a perfect balance between friction and glide
- Ideal for gamers and graphic designers
- Gives you a winning performance!
- QPAD Glidz and dome stickers included
- Great durability, easily cleaned

Specifications:

- Size: Large - 13.7 x 10.2 inches (35 x 26 cm)
- Thickness: 4 mm
- Color: Black
- Surface: Carbytek™ Hard-top
