Superb Cooling Performance

Excess heat from CPU and GPU dies are effectively transferred from thethermal modulesto the all-aluminium body which acts as a heatsink to dissipate the heat to the surrounding. Ensuring the system runs at optimal thermal performance.

Cool Storage, Cool Performance

Internal M.2 SSD heatsink reduces heat and enhances performance.

Contemporary and Made-to-Last Design

Aluminium case provides durability and long-lasting use. Coupled with symmetrically extruded fins and striking classical inspired panels for stunning aesthetics and functionality, which means the case look great in any environment.

Supports up to Four 4K Displays

The Turing WS case provides connector opening for dual HDMI 2.0b and dual Thunderbolt 4 from the Wall Street Canyon NUC for connectivity of four 4K displays. Perfect for an array of business applications such as security and digital signage.

Wide Application Capabilities

Ideal for home and business applications from digital signage to home-theatre setups and more.

Perfect for Casual Gaming

The Turing WS is designed for the Wall Street Canyon NUC with Intel® mobile processor up to Core™ i7-1270P with integrated Intel® Iris® Xe Graphics. So play without fan noise so you can focus on your gaming experience!

Perfect for your Build

Optional hi-quality external antenna (A-ATN01-BK) and corresponding pigtail (A-ATC01-150GR) to connect the antenna to the Wi-fi connector. Perfect additions for your fanless Intel NUC build should a wireless connection be required.
