

fg Flexegraph Go Chiller Deionised Water - 5 Liters

\$12.95

Product Images

Short Description

Protect your liquid cooling investment using the highest quality water when preparing and cleaning your loop. Never use tap water. Use Go Chiller's Deionised Water to minimise contamination, particularly when diluting concentrated coolant. Our Deionised Water is compatible with all Go Chiller products. For full technical details, please contact us for a copy of the product data sheet.
