Internet Reviews	<p>Reviews:</p> <div style="border: 1px solid #ccc; padding: 10px;"> <p style="text-align: right;">2007-04-01</p> <p>Cooler Master siempre se ha caracterizado por ofrecer unos productos con un diseño bastante cuidado, que en esta unidad se nota especialmente a la hora de las conexiones, situación de la electrónica y la facilidad de instalación, un diseño fantástico facilitando la correcta refrigeración de cada uno de los componentes de la unidad. Además el rendimiento de la unidad es muy satisfactorio tratándose como es una unidad por USB. Su peso, dimensiones y la bolsa de transporte la hacen perfecta para cualquier situación, ya sea por negocios o por diversión. El software incluido es básico pero efectivo.</p> <p style="text-align: right;">...more</p> <p style="text-align: right;">2007-03-26</p> <p>Per concludere possiamo dire che Cooler Master ha sfornato degli ottimi prodotti, belli da vedere e comodi da utilizzare. Nota di merito per gli accessori del 250, belli e utili. ...more</p> <p style="text-align: right;">2007-02-26</p> <p>With the stylish design, smooth operation, and very low noise when operating, I award the X Craft 250 and 350 the ratings of "Recommended" and "Whisper Quiet". ...more</p> <p style="text-align: right;">2007-01-18</p> <p>2.5" IDE to USB enclosures are a dime a dozen but Cooler Master has done an outstanding job on X Craft 250, so much so that this should be the only enclosure you ever look for when it comes time to doctor up your 2.5" drive. Yes there are some pretty nice ones out there but as far as which ones the best the buck stops right here folks. Snag yourself a Cooler Master X Craft 250 and be happy for long long time...</p> <p style="text-align: right;">...more</p> </div>
