\$4.49

Product Images

Short Description

A set of four (4) spare nickel-plated 23,9mm long screws for mounting Velocity² AM5 and Momentum² AM5 water block product series.

Description

Details

A set of four (4) spare nickel-plated 23,9mm long screws for mounting Velocity² AM5 and Momentum² AM5 water block product series. These screws, positioned on the water block itself, serve as the primary means of securing the water block to the motherboard.

The mounting screws on the water block are designed to be tightened or loosened using a Torx T7 screwdriver.

Specifications
