

# CREATIVE Creative Labs X-Fi/Audigy Sound Card to Front Case Port Adapter Cable

\$19.95

## Product Images

## Short Description

### Product Details:

Another custom made cable from Performance-PCs.com! We solve the dilemma on how to hook up your computer cases front ports to the extremely popular X-Fi and Audigy Sound cards. This cable will plug in directly to your sound card and provide 24" of cable to a male AC-97 header end that you can easily plug into your cases front audio ports. Now you dont have to buy the Creative Labs Platinum series to use your case's front audio ports using this slick new cable!

**This cable does not work with every X-Fi/Audigy card. Please be sure to check the pictures and make sure your card uses the connectors found on this cable.**

Specifications:
