\$5.99

## Product Images

## Short Description

EK-Loop D5 Pump Mounting Kit is a mounting kit for D5 pumps that enables users to convert their DDC-powered FLT series combo unit or EK-Mana G2 PC-O11D EVO distribution plate to a D5 variant.

PLEASE NOTE:

- Does not contain a D5 pump. The pump can be purchased separately.

## Description

---

## Details

EK-Loop D5 Pump Mounting Kit is a mounting kit for D5 pumps that enables users to convert their DDC-powered FLT series combo unit or EK-Mana G2 PC-O11D EVO distribution plate to a D5 variant.

It contains a bracket that holds the pump, an o-ring for the pump, and four screws to fasten the bracket to the reservoir. This kit does NOT contain a D5 pump. EK suggests the [EK-Loop D5 G3 PWM Motor](#), which is the most modern version of the D5 pump with a SATA power connector.

PLEASE NOTE:

- Does not contain a D5 pump. The pump can be purchased separately.
