

Mayhems X1 Coolant 1 Liter - Blood Red

\$14.99

Product Images

Short Description

Mayhems X1 Eco is our most environmentally friendly coolant. It is therefore recommended for use in systems where an 'environmentally friendly' product is preferred.

Description

Mayhems X1 Eco is our most environmentally friendly coolant. It is therefore recommended for use in systems where an 'environmentally friendly' product is preferred.

It combines this with good levels of thermal cooling performance and operational lifetime.

X1 Eco is based on a proprietary blend of refined vegetable extracts that are fully biodegradable and have a very low order of oral toxicity.

X1 Eco also contains advanced metal corrosion inhibitors specially formulated to protect your water cooling equipment from corrosion and scale build up, prolonging your equipment life and thermal cooling efficiency.

All the ingredients of X1 are generally recognized as safe (GRAS) by the US FDA so there is no need to worry about the safety of the product in your home.

Mayhems X1 is not classified as harmful to aquatic organisms, is readily biodegradable and will not remain in the environment or pollute water ways.

Features

Features & Benefits

Ready to use solution for cooling your system

Blended with non-toxic corrosion & scale inhibitors

Additives prevent scale filming and build up

Readily biodegradable

Specifications

- Premixed coolant offers an easy, ready to use solution to adding coolant to your system
- Compatible with all of Mayhems dyes to make your own colours

- Blended with non-toxic corrosion & scale inhibitors for protection of copper, brass, steel, nickel, and aluminium. Proven to ASTM D3306 and BS6580 standards
- Additives prevent scale filming and build up
- Minus 6C freezing point
- Boiling point: up to 100°C (pressure dependent)
- Very low oral toxicity
- Generally recognised as safe (GRAS) by the US Food & Drug Administration (FDA)
- Considered RoHS and Reach compliant by the EU
- Readily biodegradable (completely biodegrades within days)
- Contains bitter taste additives to prevent accidental consumption
- 3 Year shelf life (in a cool dry environment)
- 1 Year operational lifetime (starts when bottle is first opened)
- Manufactured in the UK

Coolant Type	Premixed
Volume	1000 ml (x6)
Colour	Blood Red
Transparency	Translucent
UV Reactive	No
Freezing Point	-6°C
Boiling Point	100°C (Pressure dependant)
Shelf Life	3 Years
Operational Lifetime	1 Year
Compatible Metals	Copper
	Brass
	Steel
	Nickel
	Aluminium

Additional Information

Brand	Mayhems
SKU	MX1BR1L
Weight	3.0000
Color	Blood Red
Fluid Type	Pre-Mixed Fluids
Volume	1 liter
Vendor SKU/EAN	5060681981086
