Short Description

Want to Customize your Fractal Design North or Just not happy with that Wood Front panel that came on your case? Well, look no further because PPCs has you covered with the PPCS Custom Modded Replacement Front Panel For Fractal Design North.

Description

Want to Customize your Fractal Design North or Just not happy with that Wood Front panel that came on your case? Well, look no further because PPCs has you covered with the PPCS Custom Modded Replacement Front Panel For Fractal Design North. Offered in a variety of patterns to give your North Case the look you're going for and many more to be added. These panels are a custom-made in-house replacement solution that uses the same standoff and screw mounting method. We have also made a DRGB Version for a little extra lighting in the front of your case.

*Please Note: With the DRGB version you will either need to not install the filter in the front or make a small hole to pass the LED wires through.
